Decoding the New Consumer Mind Kit Yarrow, 2014-03-18 Take a glimpse into the mind of the modern consumer. A decade of swift and stunning change has profoundly affected the psychology of how, when, and why we shop and buy. In *Decoding the New Consumer Mind*, award winning consumer psychologist Kit Yarrow shares surprising insights about the new motivations and behaviors of shoppers, taking marketers where they need to be today into the deeply psychological and often unconscious relationships that people have with products, retailers, marketing communications, and brands. Drawing on hundreds of consumer interviews and shop-alongs, Yarrow reveals the trends that define our transformed behavior. For example, when we shop, we show greater emotionality, hunting for more intense experiences and seeking relief and distraction online. A profound sense of isolation and individualism shapes the way we express ourselves and connect with brands and retailers. Neurological research even suggests that our brains are rewired, altering what we crave, how we think, and where our attention goes. *Decoding the New Consumer Mind* provides marketers with practical ways to tap into this new consumer psychology, and Yarrow shows how to combine technology and innovation to enhance brand image, win love and loyalty through authenticity and integrity, put the consumer's needs and preferences front and center, and deliver the most emotionally intense yet uncomplicated experience possible. Armed with Yarrow's strategies, marketers will be able to connect more effectively with consumers, driving profit and success across the organization.

New Perspectives on Consumer Culture Theory and Research Renáta Sedláková, Pavel Zahrádka, 2013-02-21 In the post socialist countries the subject of consumption has not received sufficient attention from the perspective of Consumer Culture Theory The opinion has long prevailed among the majority of social scientists from this region that consumer society and consumptive behaviour is a socially destructive phenomenon and one of the main causes of problems in contemporary society This impression has prevented them from scrutinizing the symbolic dimension of consumption and led them to a critical analysis of the social causes and environmental consequences of excessive consumption The examination of symbolic aspects of consumer culture or the mutual interaction of culture and marketing communication for example have remained outside the realm of academic interest The absence of comprehensive academic interest in the topic of consumer culture does not however mean that consumer culture is not a subject of research Such research instead takes place outside of the sphere of the university in the commercial sector and is primarily focused on issues of how to successfully sell products and services Due to competitive concerns commercial research into consumer culture has led to the privatization of its results which runs contrary to the ideal of science as an open and critical project The goal of this book is to create a counterbalance to this science in the shadows and overcome the mutual distrust between the academic and commercial spheres and make possible the transfer of recent discoveries between the two parties This publication is dedicated to the exploration of three areas of consumer culture research on consumer culture and consumer behaviour in post socialist countries especially in the Czech Republic new developments in the theory of consumer culture and innovative methodological approaches to its research and finally to recent criticism of consumer culture and consumerism It emerged from the collaboration of a team of authors made up of leading European researchers in the field of consumer culture such as Kate Soper London Metropolitan University Franz Liebl Berlin University of the Arts and Rainer Gries University of Vienna as well as promising young scholars from the Czech Republic Great Britain Sweden Serbia Poland and Portugal This book will be of great interest to students and scholars of sociology cultural studies marketing and market research
