The Renewal of Nuclear Power in Finland M. Kojo,T. Litmanen,2015-12-04 In 2002 Finnish Parliament decided to permit further construction of nuclear power after decades of long societal struggle This book analyzes the major phases of the decision making process It is an excellent guide to understanding energy and climate policy in Finland and thus the main ideas behind the renewal of nuclear power in Europe Advanced Control Engineering Methods in Electrical Engineering Systems Mohammed Chadli,Sofiane Bououden,Salim Ziani,Ivan Zelinka,2018-09-10 This book presents the proceedings of the Third International Conference on Electrical Engineering and Control ICEECA2017 It covers new control system models and troubleshooting tips and also addresses complex system requirements such as increased speed precision and remote capabilities bridging the gap between the complex math heavy controls theory taught in formal courses and the efficient implementation required in real world industry settings Further it considers both the engineering aspects of signal processing and the practical issues in the broad field of information transmission and novel technologies for communication networks and modern antenna design This book is intended for researchers engineers and advanced postgraduate students in control and electrical engineering computer science signal processing as well as mechanical and chemical engineering

From 'Carbon Democracy' to 'Climate Democracy'? James Goodman,Tom Morton,2024-10-11 What are the democratic requirements for effective climate action how can climate democracy be conceptualised Liberal democracies emerged on the back of fossil fuels creating what Tim Mitchell called carbon democracy Three decades of climate policy have affirmed the controlling influence of fossil fuel interests Runaway climate change now threatens the very foundations of social life Today we face a very clear democratic question of whether the fossil fuel sector has the right to determine the planet s climate future Achieving global energy transformation at the scope and scale needed requires a democratic transformation to overcome the stranglehold This book examines these requirements It debates the political constituencies agendas and institutions that are emerging from climate crisis comparing evidence of emergent themes New claims are emerging for green deals climate justice energy justice energy democracy and de growth reflecting a new intensity of contestation as climate change impacts deepen This book will be of great relevance to students researchers and policymakers with an interest in comparative politics democracy studies climate change and environmental policies The chapters in this book were originally published as a special issue of Globalizations

United States Code United States,2013 The United States Code is the official codification of the general and permanent laws of the United States of America The Code was first published in 1926 and a new edition of the code has been published every six years since 1934 The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress Second Session the last of which was signed by the President on January 15 2013 It does not include laws of the One Hundred Thirteenth Congress First Session enacted between January 2 2013 the date it convened and January 15 2013 By statutory authority this edition may be cited U S C

2012 ed As adopted in 1926 the Code established prima facie the general and permanent laws of the United States The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy In 1947 Congress began enacting individual titles of the Code into positive law When a title is enacted into positive law the underlying statutes are repealed and the title then becomes legal evidence of the law Currently 26 of the 51 titles in the Code have been so enacted These are identified in the table of titles near the beginning of each volume The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U S C 285b to enact the remainder of the Code on a title by title basis into positive law The 2012 edition of the Code was prepared and published under the supervision of Ralph V Seep Law Revision Counsel Grateful acknowledgment is made of the contributions by all who helped in this work particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office Preface Cities in the Anthropocene Ihnji Jon, 2021-07-20 Climate change is real and extreme weather events are its physical manifestations These extreme events affect how we live and work in cities and subsequently the way we design plan and govern them Taking action for the environment is not only a moral imperative instead it is activated by our everyday experience in the city Based on the author's site visits and interviews in Darwin Australia Tulsa Oklahoma Cleveland Ohio and Cape Town South Africa this book tells the story of how cities can lead a transformative pro environment politics National governments often fail to make binding agreements that bring about radical actions for the environment This book shows how cities as local sites of mobilizing a collective political agenda can be frontiers for activating the kind of environmental politics that appreciates the role of nature in the everyday functioning of our urban life *The Role of Local Benefits in Global Environmental Programs*, 2006 This study analyzes the interrelationship between local benefits and global environment benefits in the Global Environment Facility GEF strategies and projects in order to Enhance GEF policies strategies and project design and implementation so these can effectively promote the potential for local gains in those global environmental programs where actors need to be mobilized for long term support of sound environmental management costs incurred by local communities for supplying global environmental goods need to be reduced and possible negative impacts need to be ameliorated Strengthen GEF monitoring and evaluation policies and processes to develop indicators for and enhance the tracking of local benefits and negative impacts Expand the body of existing operational knowledge of good practices and experiences germane to pursuing global environmental issues and of constraints or fallacies to be avoided in operations Disseminate widely the most valuable lessons of existing experience and show how these lessons can be implemented in future GEF operations

Era of Ignition Amber Tamblyn, 2020-01-14 A passionate and deeply personal exploration of feminism during divisive times from one of the founders of Time's Up actor filmmaker and activist Amber Tamblyn With a new afterword A work of personal upheaval and political reckoning Rebecca Traister New York Times bestselling author of Good and Mad Amber Tamblyn has emerged as an outspoken advocate for women's rights But she wasn't always so bold and self possessed In her

late twenties after a particularly low period fueled by rejection and disillusionment she grabbed hold of her own destiny and entered into what she calls an Era of Ignition a time of self reflection that follows in the wake of personal upheaval and leads us to challenge the status quo In the process of undergoing this metaphysical metamorphosis she realized that our country is going through an Era of Ignition of its own and she set about agitating for change by initiating a dialogue about gender inequality In this deeply personal exploration of modern feminism she addresses misogyny and discrimination reproductive rights and sexual assault white feminism and pay parity all through the lens of her own experiences as well as those of her Sisters in Solidarity At once an intimate meditation and a public reckoning Era of Ignition is a galvanizing feminist manifesto that is required reading for anyone who wants to help change the world for the better *U.S. Geological Survey Professional Paper* ,1984 *EU Environmental Law, Governance and Decision-Making* Maria Lee,2014-01-12 A vast and diverse body of EU law addresses an enormous range of environmental matters This book examines a number of areas of substantive EU environmental law focusing on the striking preoccupation of EU environmental law with the structure of decision making It highlights the observation that environmental protection and environmental decision making depend intimately on both detailed specialised information about the physical state of the world and on political judgments about values and priorities It also explores the elaborate mechanisms that attempt to bring these distinctive decision making resources into EU environmental law in areas including industrial pollution chemicals regulation environmental assessment and climate change Congressional Record United States.
