Fitzgerald, 2015-10-23 Behind the twenty first century curtain of colorblind public sentiment lies an often ignored reality shared by many African American males racism continues to thrive and often drastically affects their lives Fitzgerald draws on his extensive interviews of black males to reveal the experiences of racism that continue in public schools and in American higher education Using empirical data and the methods of sociological research Fitzgerald analyzes how the persistent effects of white supremacy in education have threatened the psychological and economic welfare of black males The effects often last well into adulthood Unraveling the subtle and overt mechanisms of institutional social control leads Fitzgerald to proposals to reduce structural racism and improve the lives of African American youth

Are Black Men Doomed? Alford A. Young, Jr., 2018-01-16 Life for too many African American men is a battle with extreme disadvantage a fight for survival and a struggle for dignity in a society which labels them a problem For more than 30 years most of the effort put toward addressing the crisis of Black men has centered on what they must do to improve their condition Without neglecting that perspective *Are Black men doomed* radically shifts the focus This urgent intervention explores how a damning portrait of Black men as incorrigibly pernicious has been built and persists and how the voice of these men themselves has been ignored It astutely argues that improving the prospects for Black men requires that society fully come to terms with the narrow and incomplete vision it has sustained about these men It then shows us the means to hear understand and value them offering a new vision rooted in reinterpretation and redemption
