Black Thunder Gabriels Revolt Virginia 18:

Black Thunder Arna Bontemps, 1992-04-01 Gabriel Prosser's 1800 slave revolt allowed Bontemps to warn of the rebellion that would come of poverty and racial oppression. This metaphor of revolution is at the same time a highly pertinent representation of black masculinity that will reward students of gender slavery and the sensibilities of the 1930s. Nell Irvin Painter *Civil Rights and the Environment in African-American Literature, 1895-1941* John Claborn, 2017-11-02 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com. The beginning of the 20th century marked a new phase of the battle for civil rights in America. But many of the era's most important African American writers were also acutely aware of the importance of environmental justice to the struggle. *Civil Rights and the Environment in African American Literature* is the first book to explore the centrality of environmental problems to writing from the civil rights movement in the early decades of the century. Bringing ecocritical perspectives to bear on the work of such important writers as Booker T. Washington, W. E. B. Du Bois, the writers of the Harlem Renaissance and Depression era African American writing, the book brings to light a vital new perspective on ecocriticism and modern American literary history.

Loving Sheryll Cashin, 2017-06-06 The landmark story of how interracial love and marriage changed American history and continues to alter the landscape of American politics. When Mildred and Richard Loving wed in 1958, they were ripped from their shared bed and taken to court. Their crime, miscegenation, punished by exile from their home state of Virginia. The resulting landmark decision of *Loving v. Virginia* ended bans on interracial marriage and remains a signature case, the first to use the words "white supremacy" to describe such racism. Drawing from the earliest chapters in US history, legal scholar Sheryll Cashin reveals the enduring legacy of America's original sin, tracing how we transformed from a country without an entrenched construction of race to a nation where one drop of nonwhite blood merited exclusion from full citizenship. In vivid detail, she illustrates how the idea of whiteness was created by the planter class of yesterday and is reinforced by today's power-hungry dog-whistlers to divide struggling whites and people of color, ensuring plutocracy and undermining the common good. Not just a hopeful treatise on the future of race relations in America, *Loving* challenges the notion that trickle-down progressive politics is our only hope for a more inclusive society. Accessible and sharp, Cashin reanimates the possibility of a future where interracial understanding serves as a catalyst of a social revolution ending not in artificial color blindness but in a culture where acceptance and difference are celebrated.

The African American People Molefi Kete Asante, 2013-06-17 *The African American People* is the first history of the African American people to take a global look at the role African Americans have played in the world. Author Molefi Kete Asante synthesizes the familiar tale of history's effect on the African people who found themselves forcibly part of the United States with a new look at how African Americans in later generations impacted the rest of the world. Designed for a range of students studying African American History or African American Studies, *The African American People* takes the story from Africa to the Americas and follows the

diaspora through the Underground Railroad to Canada and on to Europe Asia and around the globe Including over 50 images documenting African American lives The African American People presents the most detailed discussion of the African and African American diaspora to date giving student the foundation they need to broaden their conception of African American History

Hip Figures Michael Szalay,2012-06-20 Hip Figures dramatically alters our understanding of the postwar American novel by showing how it mobilized fantasies of black style on behalf of the Democratic Party Fascinated by jazz rhythm and blues and rock and roll novelists such as Norman Mailer Ralph Ellison John Updike and Joan Didion turned to hip culture to negotiate the voter realignments then reshaping national politics Figuratively transporting white professionals and managers into the skins of African Americans these novelists and many others insisted on their own importance to the ambitions of a party dependent on coalition building but not fully committed to integration Arbiters of hip for readers who weren't they effectively branded and marketed the liberalism of their moment and ours

The River Flows On Walter C. Rucker,2008-01-01 The River Flows On offers an impressively broad examination of slave resistance in America spanning the colonial and antebellum eras in both the North and South and covering all forms of recalcitrance from major revolts and rebellions to everyday acts of disobedience Walter C Rucker analyzes American slave resistance with a keen understanding of its African influences tracing the emergence of an African American identity and culture Rucker points to the shared cultural heritage that facilitated collective action among both African and American born slaves such as the ubiquitous belief in conjure and spiritual forces the importance of martial dance and the drum and ideas about the afterlife and transmigration Focusing on the role of African cultural and sociopolitical forces Rucker gives in depth attention to the 1712 New York City revolt the 1739 Stono rebellion in South Carolina the 1741 New York conspiracy Gabriel Prosser's 1800 Richmond slave plot and Denmark Vesey's 1822 Charleston scheme He concludes with Nat Turner's 1831 revolt in Southampton Virginia which bore the marks of both conjure and Christianity reflecting a new African American consciousness With rich evidence drawn from anthropology archaeology and religion The River Flows On is an innovative and convincing study

Imagining Apocalypse NA NA,2016-04-30 This volume brings together essays by specialists in different disciplines on the cultural expression of apocalypse in particular in anglophone science fiction of the nineteenth and twentieth centuries Approaching these works from historical philosophical linguistic and literary perspectives the contributors examine the relationship between secular and spiritual apocalypse connecting the fiction and films to their historical moment Not surprisingly war recurs throughout this material as a critical turning point fulfilment of prophecy or prelude to a new age In particular the essays explore the issue of whether modern apocalypse is seen as an ending or a beginning considered under its political ethnic and gendered aspects Among the writers covered are H G Wells Olaf Stapledon and such contemporary figures as Michael Moorcock J G Ballard and Storm Constantine
