Blacks And Jews On The Couch Psychoanalytic Reflections On Black Jewish Conflict:

Blacks and Jews on the Couch Alan Helmreich, Paul Marcus, 1998-10-30 Black Jewish relations at the symbolic level are in shambles writes Cornel West One has only to recall the 1991 Crown Heights tragedy and its aftermath to recognize to what extent Black Jewish relations have deteriorated The emergence of frequently anti Semitic black demagogues like Louis Farrakhan and Leonard Jeffries and the Jewish community's turn to neo conservatism have only made matters worse Mistrust ambivalence and other negative feelings characterize much of Black Jewish relations Unlike most books on this topic which are written from a sociocultural historical and literary perspective this anthology looks at the psychological motives beliefs and desires that impair relations between the two groups For example unresolved vulnerabilities in respective communities from the Holocaust and slavery remain driving and complex passions that still disrupt Black Jewish relations Psychoanalysis is a powerful conceptual tool to untangle these issues and other aspects of the larger societal race relations problem **The Ocean Hill-Brownsville Conflict** Glen Anthony Harris, 2012-05-18 The history of Black Jewish relations from the beginning of the twentieth century shows that while they were sometimes partners of convenience there was also a deep suspicion of each other that broke out into frequent public exchanges During the twentieth century the entanglements of both groups have at times provided an important impetus for social justice in the United States and at other times have been the cause of great tension The Ocean Hill Brownsville Conflict explores this fraught relationship which is evident in the intellectual lives of these communities The tension was as apparent in the life and works of Marcus Garvey Richard Wright and James Baldwin as it was in the exchanges between blacks and Jews in intellectual periodicals and journals in the 1940s 1950s and 1960s The Ocean Hill Brownsville conflict was rooted in this tension and the longstanding differences over community control of school districts and racial preferences **Strangers in the Land** Eric J Sundquist, 2009-06-30 The importance of blacks for Jews and Jews for blacks in conceiving of themselves as Americans when both remained outsiders to the privileges of full citizenship is a matter of voluminous but perplexing record A monumental work of literary criticism and cultural history *Strangers in the Land* draws upon politics sociology law religion and popular culture to illuminate a vital highly conflicted interethnic partnership over the course of a century *Transgenerational Haunting in Psychoanalysis* Maurice Apprey, 2023-10-31 In this book Maurice Apprey continues his unique work on transgenerational haunting to explore how events in our ancestors lives may be renegotiated and re subjectivized in the present from within the therapeutic dyad With an informed and impassioned voice that evokes the tragic psychic consequences of the unresolved silenced tragedies and transgressions that haunt subsequent generations Apprey illustrates how the analyst can unfold a patient's transference wishes and emancipate them from the unconscious projects or errands they have inherited This can happen through a threefold process of excavating the unconscious sedimentations of ancestral history appropriating and reactivating the ancestral errands within the transference and subsequently decoding the patient's transference pressures Expanding on

Apprey's work about the analyst's field of inquiry and ways of listening in clinical practice this book illuminates the potential for a resolution rather than a re-enactment of the traumas that can haunt a family system across generations. Attending to the manifestation of transgenerational trauma through varied clinical material and informed by the thinking of Sigmund Freud among others this book will be essential reading for all psychoanalysts and psychotherapists. Trans-generational Trauma and the Other Sue Grand, Jill Salberg, 2016-12-19 Often our trans generational legacies are stories of us and them that never reach their terminus. We carry fixed narratives and the ghosts of our perpetrators and of our victims. We long to be subjects in our own history but keep reconstituting the Other as an object in their own history. Trans generational Trauma and the Other argues that healing requires us to engage with the Other who carries a corresponding pre history. Without this dialogue alienated ghosts can become persecutory objects in psyche politics and culture. This volume examines the violent loyalties of the past the barriers to dialogue with our Other and complicates the inter subjectivity of Big History. Identifying our inherited narratives and relinquishing splitting these authors ask how we can re-cast our Other and move beyond dysfunctional repetitions in our individual lives and in society. Featuring rich clinical material Trans generational Trauma and the Other provides an invaluable guide to expanding the application of trans generational transmission in psychoanalysis. It will appeal to psychoanalysts psychoanalytic psychotherapists and trauma experts. The Brooklyn Nobody Knows William B. Helmreich, 2016-10-04 Mill Basin Sunset Park Borough Park Bay Ridge Dyker Heights Bensonhurst Bath Beach Gravesend Sheepshead Bay Gerritsen Beach Manhattan Beach Brighton Beach Coney Island Acknowledgments Appendix Notes Bibliography Index **Studies in Contemporary Jewry** Eli Lederhendler, 2001-12-20 Bringing together contributions from established scholars as well as promising younger academics the seventeenth volume of this established series offers a broad ranging view of why Judaism a religion whose observance is more honored in the breach in most western Jewish communities has garnered attention authority and controversy in the late twentieth century. The volume considers the ways in which theological writings sweeping social change individual or small group needs and intra communal diversity have re-energized Judaism even amidst secular trends in America and Israel. **Textbook of Applied Psychoanalysis** Salman Akhtar, Stuart Twemlow, 2020-09-10 The Textbook of Applied Psychoanalysis is a unique and original contribution to the field of psychoanalysis. Emphasizing and underscoring the need for interdisciplinary discourse in understanding the dialectical relationship between mind and culture this volume addresses a multiplicity of realms. These include anthropology religion philosophy history as well as evolutionary psychology medicine race poverty migration and prejudice. Dimensions of social praxis such as education health policy and cyberpsychology are also addressed. The enrichment of our understanding of the fine arts e.g. painting sculpture poetry and performing arts e.g. music dance cinema by the application of psychoanalytic principles and the enhancement of psychoanalysis by bringing such arts to bear upon it also form areas of this book's concern. This magisterial volume brings distinguished psychoanalysts philosophers musicians poets businessmen architects

and movie critics together to create a chorus of modern anthropologically informed and culturally sensitive psychoanalysis

Before and After Violence Salman Akhtar, 2017-12-18 From childhood onwards humans use their environment's responses to construct models or schemata to link feelings and impulses with actions and effects. If the environment during those formative years is unreliable, frustrating, or violating, the construction of those internal models can be disrupted and create a disjointed perception of the world where violence is the only way to feel strong or good about oneself. *Before and After Violence* explores the complex network of experiences and relationships that contribute to both the origins and consequences of violence starting in the early stages of life and compounding over time. The contributors to this collection examine the different settings in which violence takes place, look at the variables that propel its occurrence in local and global instances, and depict how each can be traced back to profound feelings of betrayal, helplessness, and anger that manifest in the physical discharges of aggression towards a single person or a whole group. Through a psychoanalytic lens, the contributors analyze and explain violence in its many forms, delve into its myriad of causes, as well as offer a variety of solutions that can be applied to various instances of violence, whether it be physical or mental, self-directed or other-directed.

The New York Nobody Knows William B. Helmreich, 2015-08-25 As a kid growing up in Manhattan, William Helmreich played a game with his father they called Last Stop. They would pick a subway line and ride it to its final destination and explore the neighborhood there. Decades later, Helmreich teaches university courses about New York, and his love for exploring the city is as strong as ever. Putting his feet to the test, he decided that the only way to truly understand New York was to walk virtually every block of all five boroughs, an astonishing 6,000 miles. His epic journey lasted four years and took him to every corner of Manhattan, Brooklyn, Queens, the Bronx, and Staten Island. Helmreich spoke with hundreds of New Yorkers from every part of the globe and from every walk of life, including Mayor Michael Bloomberg and former mayors Rudolph Giuliani, David Dinkins, and Edward Koch. Their stories and his are the subject of this captivating and highly original book. We meet the Guyanese immigrant who grows beautiful flowers outside his modest Queens residence in order to always remember the homeland he left behind; the Brooklyn-raised grandchild of Italian immigrants who illuminates a window of his brownstone with the family's old neon grocery store sign; and many, many others. Helmreich draws on firsthand insights to examine essential aspects of urban social life, such as ethnicity, gentrification, and the use of space. He finds that to be a New Yorker is to struggle to understand the place and to make a life that is as highly local as it is dynamically cosmopolitan.
