Blades Of Cordoba:

The Blades of Cordoba Terence Kelly, 1981-01-01 *Artifacts of the Spanish Colonies of Florida and the Caribbean, 1500-1800* Kathleen Deagan, 2023-08-08 This long awaited follow up to Deagan's first volume on ceramics glassware and beads focuses on the portable personal objects owned and used by the residents of Spanish colonial America. These objects are not only of Spanish origin; the collection includes many English, French, Dutch, German, Italian, and American pieces as well. Deagan not only provides an authoritative source of identification for these items but also draws extensively on colonial documents, travel accounts, paintings, and museum collections as well as other contemporary sources to suggest specific functions of the items and the meanings they held for the people who used them. She documents and demonstrates how the objects were made and exchanged in the Americas and explores how they embody Hispanic cultural identities, attitudes, and belief systems.

The Gillette Blade, 1920 *Requiem for Cordoba* Marilyn Ekdahl Ravicz, 2003-09-18 The time is the tenth century. The place is glorious Cordoba, capital of Moorish Al Andalus, where plots involve a coalition to arrest the despotism of El Mansur who is systematically despoiling their tolerant and cultured society to gain power and wealth. The coalition, self-named the Seers, includes a Caliph's wife, a Muslim merchant, the palace Chief Cook, a Jewish physician, diplomat, the Mother Superior of a Christian convent, a Moorish General, a Court poet, and a young woman slave. Seers' machinations include assassinations, sabotage, spying, and naturally, love. It could have happened since some characters were historical.

Magic and Divination in the Middle Ages Charles Burnett, 2024-10-28 After discussing the terminology of talismanic magic or necromancy and its position in divisions of science in the Middle Ages, this book traces the history of talismanic texts from the Classical period through the Arabic world to the Latin Middle Ages. The principal authorities are Hermes and Aristotle, and the search for the secret knowledge of these ancient sages is shown to have been a catalyst for the translating activity from Arabic into Latin in 12th century Spain. The second half of the volume is devoted to examples of the kinds of divination prevalent in Arabic and Latin reading societies: chiromancy, onomancy, scapulimancy, geomancy, and fortune telling. The book ends with advice on when to practice alchemy and a prophetic letter of supposed Arabic provenance warning of the coming of the Mongols. Several editions of previously unedited texts are included with translations.

In ancient times, the Iberian Peninsula (Spain and Portugal) was home to warriors of great renown. Iberian and Celtiberian warriors, both infantry and cavalry, served as the backbone of the Carthaginian armies that terrorized Italy under Hannibal and proved even more fierce when defending their homeland against later Roman occupation. The Lusitanian

resistance under Viriathus was among the toughest the Romans encountered anywhere Professor Quesada Sanz details the arms armour and equipment of the various warriors of the region in fantastic detail drawing on his intimate knowledge of the latest archaeological and historical research His clear and informative text is supported throughout by a wealth of photographs diagrams and exquisite colour artwork by Carlos Fernandez del Castillo This beautiful book is a rare combination of detailed comprehensive information and sumptuous visual appeal that will be cherished by anyone with an interest in the warriors and weapons of the ancient world The Spanish edition won the Hislibris Award for the Best Historical Book for 2010 and is here faithfully translated into English
