Blairs Britain A Christian Critique:

Remoralizing Britain? Peter Manley Scott, Christopher Baker, Elaine L. Graham, 2009-03-31 On seeking office and in coming to power New Labour presented its vision for Britain in moral terms During the course of the New Labour administration further moral themes have been introduced responsibility and respect the merits of local government and self governance and the moral imperative to confront threats of terror from abroad This moral agenda with its apparently religious roots has been much noted but not much discussed The political phenomenon of New Labour requires the disciplines of theology and ethics as well as social theory and politics to be properly understood and assessed Drawing together for the first time theorists from a range of disciplines and commitments this interdisciplinary collection offers a reckoning of this New Labour decade As such it has four central research questions What is the nature of this remoralising What are its sources How effective has it been and what difference has this moral discourse made What can be learned from Blairism about the relationship between faith morals and governance [The Routledge Companion to the Christian Church](#)

Gerard Mannion, Lewis S. Mudge, 2007-12-12 The nature and story of the Christian church is immensely important to theology students and scholars alike Written by an international team of distinguished scholars this comprehensive book introduces students to the fundamental historical systematic moral and ecclesiological aspects of the study of the church as well as serving as a resource for scholars engaging in ecclesiological debates on a wide variety of issues It divides into six parts the church in its historical context the different denominational traditions global perspectives methods and debates in ecclesiology key concepts and themes ecclesiology and other disciplines social sciences philosophy literature and film Authoritative accessible and easily navigable this book is indispensable for everyone interested in the nature and history of the Christian Church **Faith and Politics After Christendom** Jonathan Bartley, 2013-08-01 This groundbreaking book examines the anarchic aspects of Jesus message and suggests that the demise of the church as pillar of social order gives it a fresh opportunity to exercise its prophetic role challenging injustice shaking institutions and undermining some of the central values and norms on which post Christian society is built *Contesting Secularism* Anders Berg-Sørensen, 2016-05-13 As we enter the twenty first century the role of religion within civic society has become an issue of central concern across the world The complex trends of secularism multiculturalism and the rise of religiously motivated violence raise fundamental questions about the relationship between political institutions civic culture and religious groups *Contesting Secularism* represents a major intervention into this debate Drawing together contributions from leading scholars from across the world it analyses how secularism functions as a political doctrine in different national contexts put under pressure by globalisation In doing so it presents different models for the relationship between political institutions and religious groups challenging the reader to be more aware of assumptions within their own cultural context and raises alternative possibilities for the structure of democratic multi faith societies Through its inter disciplinary and comparative approach *Contesting Secularism* sets a new

agenda for thinking about the place of religion in the public sphere of twenty first century societies It is essential reading for policymakers as well as for scholars and students in political science law sociology and religious studies *Redefining Christian Britain* Jane Garnett,2007 Addresses the state of religion in the UK from post WWII to the new millennium with a selection of case studies from experts in the fields of history sociology and religious studies This book is organised around the themes of authenticity generation and virtue It looks at the impact of Christianity over a range of areas of national life

The Hybrid Church in the City Christopher Richard Baker,2016-12-05 The era of post colonialism and globalisation has brought new intensities of debate concerning the existence of diversity and plurality and the need to work in partnerships to resolve major problems of injustice and marginalisation now facing local and global communities The Church is struggling to connect with the significant economic political and cultural changes impacting on all types of urban context but especially city centres inner rings and outer estates and the new ex urban communities being developed beyond the suburbs This book argues that theology and the church need to engage more seriously with post modern reality and thought if points of connection both theologically and pastorally are going to be created The author proposes a sustained engagement with a key concept to emerge from post modern experience namely the concept of the Third Space Drawing on case studies from Europe and the USA primarily this book examines examples of Third Space methodologies to ask questions about hybrid identities and methods churches might adopt to effectively connect with post modern cities and civil society Particular areas of focus by the author include the role and identity of church in post modern urban space the role of public theology in addressing key issues of marginalisation and urbanisation as they impact in the 21st century the nature and role of local civil society as a local response to globalised patterns of urban economic social and cultural change Theology and Economics

Jeremy Kidwell,2015-12-27 This volume brings together a prominent group of Christian economists and theologians to provide an interdisciplinary look at how we might use the tools of economic and theological reasoning to cultivate more just and moral economies for the 21st century **Community Cohesion in Crisis?** John Flint,David Robinson,2008-07-23 This book examines how new dimensions of diversity and difference so often debated in the national context are emerging at the neighbourhood level

Ecclesiology and Postmodernity Gerard Mannion,2017-01-13 What in the world is postmodernity Is it the dominant reality today If it is what does it mean to be a church in a postmodern world It seems that the church had a difficult time coming to terms with a modern world an era ruled by the claims of scientific certainty Having done so more or less it is now confronted by the claims of postmodernity which seem to reverse the whole equation to say that certainty and objectivity are chimeras What is truth Pilate asked and postmodernity at least as caricatured by its opponents responds There s no such thing Gerard Mannion in *Ecclesiology and Postmodernity* addresses the situation of the church in a postmodern world The fundamental changes in human society and culture wrought by the twentieth century require the church to consider its response in the twenty first century What is the church s moral Vision how does its practice look what

is the nature of its aspiration toward holiness in our times Mannion believes that since Vatican II the Catholic Church has been in a kind of limbo awaiting a Vision of its own life for the future Rather than focusing on specific controversies Mannion offers concrete suggestions about how the church can create a better harmony between its own self understanding its ecclesiological Vision and its day to day life its ecclesial practice Gerard Mannion PhD educated at King s College Cambridge University and New College Oxford University is Associate Professor of Ecclesiology and Ethics in the Department of Theology and Religious Studies at Liverpool Hope University UK He is also the director of Church In Our Times Centre for the Study of Contemporary Ecclesiology co director of the Applied Ethics Initiative at Liverpool Hope co chair of the AAR American Academy of Religion Ecclesiological Investigations Program Unit and co ordinator of the Ecclesiological Investigations International Research Network Mannion is the author of Schopenhauer Religion and Morality and co editor of Readings in Church Authority Gifts and Challenges for Contemporary Catholicism both published by Ashgate in 2003 and co editor of the forthcoming volumes The Routledge Companion to the Christian Church and Catholic Social Justice Theological and Practical Explorations *Hybrid Church in the City* Christopher Baker, 2013-02-11 There has been a growing interest in the rapidly evolving nature of cities in the past 10 15 years but especially in the last 5 years and the profound impact this is having upon our understanding of community belonging and church This book shows that theology in an urban context has developed way beyond the inner city nostalgia It is a challenging critical and constructive study of the role of the church in cities
