Pricing the Priceless Child Viviana A. Zelizer, 1994-08-28 This study traces the emergence of changing attitudes about the child at once economically useless and emotionally priceless from the late 1800s to the 1930s It describes how turn of the century America discovered new sentimental ways to determine a child's monetary worth Black Market Baby Rene Clarke, 2013-11-19 I was born in Canada in 1940 Pregnancy outside of marriage was a disgrace and young women who found themselves in such situations were whisked away and dumped into convents or hospitals Babies were taken out of the arms of young mothers often without their consent and sold to married couples They were smuggled across the U S Canadian Border Papers were forged or destroyed They were called black market babies I was one of these children Black Market Baby reveals my life growing up as an adoptee with its inherent sense of rootlessness abandonment and denial The writing of this book made my adoption real to me the shame of unwed mothers the shame of being different the shame of being abandoned by my own mother and born of a questionable past My parents didn't tell me until I was eleven years old a mistake made by many and I lived most of my adult life ignoring the fact of my true origins It wasn't until I was forty eight that I began to face the truth and start searching This story exists on many levels adoption divorce politics mystics and psychics backpacking into the wilderness to find solace facing health issues dealing with three daughters dropping out of the clichéd housewife existence to living the alternative lifestyle of an artist which has always been my secret desire It shows the difficulties of coping with the truth about my life and facing the realities of who I am it is a story of discovery The Traffic in Babies Karen A. Balcom, 2011-12-15 Between 1930 and the mid 1970s several thousand Canadian born children were adopted by families in the United States At times adopting across the border was a strategy used to deliberately avoid professional

oversight and take advantage of varying levels of regulation across states and provinces The Traffic in Babies traces the efforts of Canadian and American child welfare leaders with intermittent support from immigration officials politicians police and criminal prosecutors to build bridges between disconnected jurisdictions and control the flow of babies across the Canada U S border Karen A Balcom details the dramatic and sometimes tragic history of cross border adoptions from the Ideal Maternity Home case and the Alberta Babies for Export scandal to trans racial adoptions of Aboriginal children Exploring how and why babies were moved across borders The Traffic in Babies is a fascinating look at how social workers and other policy makers tried to find the birth mothers adopted children and adoptive parents who disappeared into the spaces between child welfare and immigration laws in Canada and the United States *Sex and Reason* Richard A. Posner,1992 Posner s rational choice theory is the first comprehensive approach to sexuality and its social controls Drawing on the fields of biology law history religion and economics this sweeping study examines societies from ancient Greece to today s Sweden and issues from incest taboos and date rape to gay marriage and Baby M **Departments of Labor, and Health, Education, and Welfare Appropriations for 1967** United States.
