Blacks In Black And White A Source On Black Films:

Blacks in Black and White Henry T. Sampson, 1977 Traces the history of the black film industry from its beginnings around 1910 to its demise in 1950 chronicling the activities of pioneer black filmmakers and performers who had been virtually ignored by film historians

Black Lenses, Black Voices Mark A. Reid, 2005 Black Lenses Black Voices is a provocative look at films directed and written_ and sometimes produced_ by African Americans as well as black oriented films whose directors or screenwriters are not black Mark Reid shows how certain films dramatize the contemporary African American community as a politically and economically diverse group vastly different from film representations of the 1960s Taking us through the development of African American independent filmmaking before and after World War II he then illustrates the unique nature of African American family action horror female centered and independent films such as *Eve s Bayou* *Jungle Fever* *Shaft* *Souls of Sin* *Bones Waiting to Exhale* *Monster s Ball* *Sankofa* and many more *Passing and Posing between Black and White* Lisa Gotto, 2021-09-03 Since its inception U S American cinema has grappled with the articulation of racial boundaries This applies in the first instance to featuring mixed race characters crossing the color line In a broader sense however this also concerns viewing conditions and knowledge configurations The fact that American film engages itself so extensively with the unbalanced relation between black and white is neither coincidental nor trivial to state it has much more to do with disputing boundaries that pertain to the medium itself Lisa Gotto examines this constellation along the early history of American film the cinematic modernism of the late 1950s and the post classical cinema of the turn of the millennium

Black America, Body Beautiful Eric J. Bailey, 2008-07-30 Despite all the medical and media attention focused on the rate of overweight and obesity in the African American population African American images and body types are greatly influencing changes in the fashion fitness advertising television and movie industries This is because overweight like beauty can be in the eye of the beholder Most research studies investigating attitudes about body image and body type among African Americans have shown they are more satisfied with their bodies than are their white counterparts and that there appears to be a wider range of acceptable body shapes and weights and a more flexible standard of attractiveness

among black Americans as compared to whites That fact is not being lost on leaders of industries that might profit from understanding this wider range of beauty as well as playing to it In this book medical anthropologist Eric Bailey introduces and explains the self acceptance and body image satisfaction of African Americans and traces how that has spurred changes in industry His book fills the void of scientific evidence to enhance the understanding of African Americans perceptions related to body image and beauty and is the first to document these issues from the perspective of an African American male Despite all the medical and media attention focused on the rate of overweight and obesity in the African American population African American images and body types are greatly influencing changes in the fashion fitness advertising television and movie industries This is because overweight like beauty can be in the eye of the beholder Most research studies investigating attitudes about body image and body type among African Americans have shown they are more satisfied with their bodies than are their white counterparts Most black women for example are of course concerned with how they look but do not judge themselves in terms of their weight and do not believe they are valued mostly on the basis of their bodies Black teen girls most often say being thick and curvaceous with large hips and ample thighs is seen as the most desirable body shape Thus there appears to be a wider range of acceptable body shapes and weights and a more flexible standard of attractiveness among black Americans as compared to whites That fact is not lost on leaders of industries that might profit from understanding this wider range of beauty as well as playing to it Voluptuous supermodel Tyra Banks is just one African American who s broken the mold in that industry The effects have been seen right down to department and local clothes stores where lines of larger and plus size fashions are expanding becoming more colorful and more ornate In the fitness industry health gurus Madonna Grimes and Billy Blanks have been revolutionizing how people get fit and how fitness needs to be redeveloped for the African American population Advertising has taken a similar turn not the least manifestation of which were the major campaigns Dove and Nike ran in 2005 with plus sized actresses who continue to appear in promotions for both companies In movies and on television shows the African American beautiful body image has followed suit In this book medical anthropologist Eric Bailey introduces and explains the self acceptance and body image satisfaction of African Americans and traces how that has spurred changes in industry His book fills the void of scientific evidence to enhance the understanding of African Americans perceptions related to body image and beauty and is the first to document these issues from the perspective of an African American male

Every Step a Struggle Frank Manchel, 2007 This book pays tribute to the sacrifices and achievements of seven individuals who made difficult and controversial choices to insure that black Americans shared in the evolution of the nation s cultural heritage Transcriptions and analyses of never before published uncensored conversations with Lorenzo Tucker Lillian Gish King Vidor Clarence Muse Woody Strode Charles Gordone and Frederick Douglass O Neal reveal many of the reasons and rationalizations behind a racist screen imagery in the first three quarters of the twentieth century This primary source replete with pictures documentation and extensive annotations

recounts through the words of important participants what happened to many film pioneers when a new generation of African Americans rebelled against the nation's stereotyped film imagery. A unique historical resource, this book is a fitting tribute to these artists, reminding us of their courage, integrity, and perseverance to succeed against great odds. The thorough, meticulous annotations make it an indispensable addition to collections in film studies and African American studies. Denise Youngblood, Professor of History, University of Vermont. The author has taken a unique approach and may have even created a new genre of writing: the interview embellished with scholarly commentary. It is a fascinating experiment. This book belongs in every research library and in all public libraries from mid-size to large cities. It fills in lacunae between existing studies. Peter C. Rollins, Editor in Chief of *Film History*.

Oscar Micheaux and His Circle Charles Musser, Jane Marie Gaines, Pearl Bowser, 2016-03-28. Oscar Micheaux, the most prolific African American filmmaker to date and a filmmaking giant of the silent period, has finally found his rightful place in film history. Both artist and showman, Micheaux stirred controversy in his time as he confronted issues such as lynching, miscegenation, peonage, and white supremacy, passing and corruption among black clergymen. In this important collection, prominent scholars examine Micheaux's surviving silent films, his fellow producers of race films who alternately challenged or emulated his methods, and the cultural activities that surrounded and sustained these achievements. The relationship between black film and both the stage, particularly the Lafayette Players, and the black press, issues of underdevelopment, and a genealogy of Micheaux scholarship, as well as extensive and more accurate filmographies, give a richly textured portrait of this era. The essays will fascinate the general public as well as scholars in the fields of film studies, cultural studies, and African American history. This thoroughly readable collection is a superb reference work, lavishly illustrated with rare photographs.

Blaxploitation Films of the 1970s Novotny Lawrence, 2007-12-12. This book examines a number of blaxploitation films, including *Cotton Comes to Harlem* (1970), *Blacula* (1972), and *The Mack* (1973), and illustrates the manner in which blaxploitation came to be understood as a separate genre.

Women and Mixed Race Representation in Film Valerie C. Gilbert, 2021-09-27. This book uses a black-white interracial lens to examine the lives and careers of eight prominent American-born actresses from the silent age through the studio era, New Hollywood, and into the present century: Josephine Baker, Nina Mae McKinney, Fredi Washington, Lena Horne, Dorothy Dandridge, Lonette McKee, Jennifer Beals, and Halle Berry. Combining biography with detailed film readings, the author fleshes out the tragic mulatto stereotype while, at the same time, exploring concepts and themes such as racial identity, the one-drop rule, passing, skin color, transracial adoption, interracial romance, and more. With a wealth of background information, this study also places these actresses in historical context, providing insight into the construction of race, both onscreen and off.
