*The Canonical Visitation of Parishes* Gregory N. Smith, 2007-06-25 The ordinary episcopal visitation of parishes treated in canons 396 398 of the 1983 Code of Canon Law is studied here from its origins to the present The dissertation's first chapter traces the historical development of this ancient canonical institute particularly with a view to showing its usefulness for Church reform The second examines the canons of the 1917 and 1983 codes and provides a detailed commentary on the latter A final chapter studies the visitation of parishes in Canada Three methods are used corresponding to the three chapters In the first chapter a primarily historical review

draws on Scripture the Fathers papal legislation the decrees of provincial and ecumenical councils particularly the Council of Trent and other sources The second chapter takes an exegetical approach interpreting the 1983 canons on the visitation in light of the former law the Second Vatican Council and contemporary papal and curial documents The visitation is related to the diocesan bishop's power of governance The third chapter presents the results of the author's survey of Canadian bishops carried out according to the methods of social science research Without arguing that the visitation is a panacea for all the Church's ills the author concludes that it is a highly effective way for bishops to address some present difficulties and avoid future ones

**Jews and the Wine Trade in Medieval Europe** Haym Soloveitchik, 2024-05-03 Although Jews were at the centre of commercial activity in medieval Europe a talmudic ban on any wine touched by a Gentile prevented them from engaging in the lucrative wine trade Wine was consumed in vast quantities in the Middle Ages and the banks of the Rhineland hosted some of the finest vineyards in northern Europe German Jews were until the thirteenth century a merchant class How could they abstain from trading in one of the region's major commodities In time they ruled that it was permissible to accept wine in payment of debt but forbade trading in it and they maintained that ban throughout the Middle Ages Further study in the twelfth century however led Talmudists to discover that Jews were only forbidden to profit from trading in Gentile wine if they dealt with idolaters but that trade with Christians and Muslims was permitted Nevertheless the German community refused to take advantage of this clear licence Using Jewish and Gentile sources this study probes the sources of this powerful taboo In describing the complex ways in which deeply held cultural values affect Jews' engagement in the economy of the surrounding society this book also illustrates the law of unintended consequences how the ban on Gentile wine led both to a major Jewish contribution to German viticulture and to the involvement of Jews in moneylending with all its tragic consequences
