1 Census Key Stats Wales:

Eurojihad Angel Rabasa, Cheryl Benard, 2015 *Eurojihad* examines the scope of Islamist extremism and terrorism and the sources of radicalization in Muslim communities in Europe Statistical Sources for Social Research on Western Europe 1945-1995 Franz Rothenbacher, 2013-11-11 The intention of this book is to give a picture of the complex material that has been published in the field of social and economic statistics in Western Europe Although there are many guides bibliographies and reference books on special topics of this broad theme a general overview has been missing With this book I hope to fill this gap The frame of reference is a scientific one enabling and facilitating comparative social research on Western Europe In some respect this book enlarges and updates the bibliography written by Peter Flora *Quantitative Historical Sociology* published in *Current Sociology* in 1975 In principle this guide is an annotated bibliography of the most important printed material in the field of official statistics The legitimacy of such an approach lies in the fact that even today printed statistics are the most important form of dissemination of statistical results although microcomputers CD ROMs and the Internet have changed this situation In any case a special section on statistical databases is included for every country describing the main databases of the statistical offices Furthermore the Internet address of each international or national statistical institute is provided in the introductory paragraph This enables the reader to get fast access to online databases and supplementary online information on statistics via the Internet *UK Statistics* David Mort, 2019-06-04 First published in 1992 the aim of this volume is to provide an introduction to the range of UK published statistical sources now available to business users It is not a comprehensive review of UK statistical publishing but a guide to key sources of information in selected subject areas of particular relevance to business users The coverage content methods of collection and limitations of major titles and services in each subject area are described Published statistics are important sources of information for business and industry and most statistics either come from official sources produced by central government or non official sources such as trade associations professional bodies market research organizations and economic research institutes Examples are used to show the strengths and weaknesses of statistical sources and to compare different sources A bibliography of all the sources mentioned is included at the end of the book Appendix 1 gives the names and addresses of contacts for further information and Appendix 2 is a list of selected abbreviations and acronyms *The Edge of Cymru* Julie Brominicks, 2023-03-06 In the course of a year Julie Brominicks walked around the edge of Wales having left her job in environmental education at the Centre for Alternative Technology in Machynlleth As an English incomer and a Welsh learner with a long association with the country she was interested in what Wales meant and how she did or didn't fit in to it The result is a fascinating alternative travelogue which merges topography history environmentalism and observation of nature to produce the long view of Wales discovering the roots of the present in the past sometimes the distant past Brominicks observations of the places and people she discovers around Wales are lively and well written although this is her journey in

many senses of that word the narrative is at least as interested in who she meets and what she sees especially of ordinary life She brings the everyday to life in thought provoking ways her book a new way of looking at the place where we live and the people with whom we live our lives knowingly and unknowingly Her writing is lyrical studded with engaging and striking coinages and images which take the reader along the journey with her both entertained and informed The Edge of Cymru is a refreshingly new way of looking at place identity memory and belonging especially through an environmental lens It rewards the reader whether they are interested in Wales specifically or the world generally Bursts with beautiful descriptive prose which picks up the minutia of each moment Brominicks skilfully examines broad social environmental political economic and even geological changes without the book feeling dry as accessible as a novel and would make a great holiday read as much as a bedside book Countryfile Magazine **Teacher Training and the Education of Black Children** Uvanney

Maylor,2014-01-10 This book is designed to challenge dominant educational discourses on the underachievement of Black children and to engender new understandings in initial teacher education ITE about Black children s education and achievement Based in empirical case study work and theoretical insights drawn from Bourdieu hooks Freire and Giroux Maylor calls for Black children s underachievement to be re theorised and re conceptualised within teacher education and for students and teachers to become more race and difference minded in their practice Brexit, Language Policy and

Linguistic Diversity Diarmait Mac Giolla Chríost,Matteo Bonotti,2018-05-08 This book argues that Brexit will wholly re shape the legal framework and public policy norms relating to linguistic diversity that have dominated public life in the UK and the EU since the Treaty on European Union in 1993 First Brexit de anchors the linguistic actors engaged with sub state nationalisms in the UK in Northern Ireland Wales and Scotland from the ethno linguistic imaginary of the so called Europe of the regions This strengthens the case both for the de jure recognition of English as the official language of the UK and for embedding autochthonous minority language rights and freedoms in a transformed UK constitution Second Brexit strengthens the normative case for English as the lingua franca of the EU by reducing the injustices associated with the rise of English as the EU and global lingua franca The book will appeal to students and scholars across the fields of political science political theory law language policy and planning and sociolinguistics *Love, Friendship, and Narrative Form After*

Bloomsbury Jesse Wolfe,2022-12-15 Exploring how the Bloomsbury Group s cutting edge thinkers Virginia Woolf Sigmund Freud and E M Forster understood the intimacy of friends lovers spouses and families as historically unfolding phenomena this book offers a compelling account of modernism s legacies in contemporary fiction and demonstrates the myriad ways in which intimacy was a guiding and persistent idea explored by writers across the 20th century and up to the present day Often modernists have been celebrated for their insights into social and civilizational sickness but this book unearths a strain of modernist thought that is more complex and inspiring than this It discusses how Bloomsbury s thinkers wrestled with the question Does intimate life improve as sexual egalitarianism expands as taboos against same sex love interracial love and

singlehood wane and as parents and children relate less formally and often more warmly toward one another And it discusses how many of today s major novelists such as Salman Rushdie Zadie Smith Ian McEwan and Rachel Cusk look to Bloomsbury s thematic and formal examples when they reformulate this question for our time *Birth Advantages and Relative Age Effects in Sport* Adam Kelly, Jean Côté, Mark Jeffreys, Jennifer Turnnidge, 2021-06-03 Relative age effects RAEs refer to the participation selection and attainment inequalities in the immediate short term and long term in sports Indeed dozens of studies have identified RAEs across male and female sporting contexts Despite its widespread prevalence there is a paucity in the empirical research and practical application of strategies specifically designed to moderate RAEs Thus the purpose of this book is to situate RAEs in the context of youth sport structures lay foundational knowledge concerning the mechanisms that underpin RAEs and offer alternative group banding strategies aimed at moderating RAEs In order to enhance our knowledge on birth advantages and RAEs to create more appropriate settings key stakeholders such as coaches practitioners administrators policy makers and researchers are required to understand the possible influence of and interaction between birthplace engagement in activities ethnicity genetic profile parents socioeconomic status and relative age Thus in addition to RAEs and alternative group banding strategies *Birth Advantages and Relative Age Effects in Sport* also examines the role of additional birth advantages and socio environmental factors that young athletes may experience in organized youth sport Drawing from both empirical research and practical examples this book comprises three parts a organizational structures b group banding strategies and c socio environmental factors Overall this book broadens our understanding of the methodological contextual and practical considerations within organizational structures in sport to create more appropriate settings and strive to make positive impactful change to lived youth sport experiences This book will be of vital reading to academics researchers and key stakeholders of sports coaching athlete development and youth sport as well as other related disciplines **The Desecularisation of the City** David Goodhew, Anthony-Paul Cooper, 2018-09-21 Major cities have long been seen as centres of secularisation However the number of congregations in London grew by 50% between 1979 and the present London s churches have been characterised more by growth than by decline in the decades since 1980 The Desecularisation of the City provides the first academic survey of churches in London over recent decades linking them to similar developments in other major cities across the West Produced by a large team of scholars from a range of disciplines this volume offers a striking and original portrait of congregational life in London since 1980 Seventeen chapters explore the diverse localities ethnicities and denominations that make up the church in contemporary London The vitality of London s churches in the last four decades shows that secularisation is far from inevitable in the cities of the future This study necessitates a significant reassessment of the dominant academic portrayal of Christianity in Britain and the West which has mostly depicted cities as secular spaces within a secularising culture It will be of great interest to scholars working across a wide range of disciplines including history sociology religious studies and theology Retail Location Planning in an Era of

Multi-Channel Growth Mark Birkin, Graham Clarke, Martin Clarke, 2017-03-27 The way in which products and services are delivered to consumers through branches and retail outlets or more generally through a network of distribution channels remains fundamentally important for maintaining a competitive advantage for a very wide range of businesses This is true within domestic markets but especially so for increasingly global corporations as shareholder pressure for continued growth drives businesses into ever more widespread geographical markets Arguing that more complex markets demand more sophisticated spatial analysis this book discusses the application of location planning techniques to generate competitive advantage in a variety of business sectors in a changing retail environment The series of techniques are analysed from relatively straightforward branch scorecards to sophisticated applications of geographical information systems GIS spatial modelling and mathematical optimisation Also explored are the changing dynamics of the impact of more restrictive planning environments in many countries on how retailers find new locations for growth and respond to changing consumer needs and wants The book is essential reading for students and scholars alike working in geography economics business management planning finance and industry studies
