25 Fluxus stories Harry Ruhé, 2021 Fluxus Natasha Lushetich, 2014-06-01 Focusing on the most definition resistant art movement in history and departing from its two chief characteristics intermediality and interactivity this book develops an original theory of practice the experiential philosophy of non duality which is the philosophy of dynamic co constitutivity This is done by tracing the performativity of intermedial works works that fall conceptually between the art and the life media such as Bengt af Klintbergs s event score Eat an orange as if it were an apple in five key areas of human experience language temporality the sensorium social rites and rituals and systems of economic exchange The main argument woven with the aid of the Derridian blind tactics the Gramscian production of social life and the Zen derived interexpression of Kitaro Nishida is that the practical philosophy of co constitutivity arises from the logic of the intermedium In pursuing this argument the book does three things 1 it theorises an oeuvre that has remained under theorised due to its fundamentally non discursive nature and in doing so reinstates Fluxus as an influential cultural rather than a merely artistic paradigm 2 it serves as a companion to thinking by doing since most Fluxus intermedia are ready made and as such readily available in the everyday environment and 3 it establishes the counter hegemonic logic of fluxing while tracing its legacy in contemporary practices as diverse as the culture jamming activism of The Yes Men the paradoxical performance work of Song Dong and the pervasive game worlds of Blast Theory Natasha Lushetich is an artist researcher and Lecturer in Performance at the University of Exeter UK Her specialist areas include intermedia live art performance and philosophy and questions of identity and ideology Her recent writings have appeared in Babilonia Performance Research TDR Theatre Journal Total Art Journal as well as in a number of edited collections *Looking for Mr. Fluxus* Raimundas Malašauskas, Grady T. Japan Fluxus Luciana Galliano, 2018-11-29 Fluxus was a pivotal movement in redefining art's role and the artist's identity in the contemporary world so that its aesthetics as well as many of its gimmicks have become so deeply embedded in our social setting that we now no longer realize where they originally came into being Fluxus has been described as the most radical and experimental art movement of the 1960s challenging conventional thinking on art and culture It had a central role in the birth of such key contemporary art forms as concept art installation performance art intermedia and video The amount of Fluxus-related scholarly activity has increased since 2009 when New York's Museum of Modern Art acquired the world's largest collection of Fluxus works the Lila and Gilbert Silverman Collection and this in turn led to a series of exhibitions first at MoMA and subsequently at other institutions worldwide Focusing on Japanese artists involved in Fluxus the book proposes a new understanding of this movement which in spite of its anti-academicism its aversion to authorial identity and the ephemeral character of its output is the best documented and best cross-indexed art movement in history

Nam June Paik 1994-77 The book presents postwar Japanese radical avant-garde and the related and highly refined discourse and debate behind it enlightening crucial if less known aspects of local Fluxus history and theory
