33 By Arthur Conan Doyle:

33 by Arthur Conan Doyle Arthur Conan Doyle, John Michael Gibson, 1986 **The Improbability Principle** David J. Hand, 2014-02-11 An eye opening and engrossing look at rare moments why they occur and how they shape our world

Folklore and the Fantastic in Nineteenth-Century British Fiction Jason Marc Harris, 2016-04-15 Jason Marc Harris's ambitious book argues that the tensions between folk metaphysics and Enlightenment values produce the literary fantastic. Demonstrating that a negotiation with folklore was central to the canon of British literature, he explicates the complicated rhetoric associated with folkloric fiction. His analysis includes a wide range of writers including James Barrie, William Carleton, Charles Dickens, George Eliot, Sheridan Le Fanu, Neil Gunn, George MacDonald, William Sharp, Robert Louis Stevenson, and James Hogg. These authors, Harris suggests, used folklore to articulate profound cultural ambivalence towards issues of class, domesticity, education, gender, imperialism, nationalism, race, politics, religion, and metaphysics. Harris's analysis of the function of folk metaphysics in nineteenth and early twentieth century narratives reveals the ideological agendas of the appropriation of folklore and the artistic potential of superstition in both folkloric and literary contexts of the supernatural.

Atlas of Imagined Places Matt Brown, Rhys B. Davies, 2021-09-28 WINNER Edward Stanford Travel Writing Awards 2022 Illustrated Travel Book of the Year HIGHLY COMMENDED British Cartographic Society Awards 2022 From Stephen King's Salem's Lot to the superhero land of Wakanda, from Lilliput of Gulliver's Travels to Springfield in The Simpsons, this is a wondrous atlas of imagined places around the world. Locations from film, tv, literature, myths, comics, and video games are plotted in a series of beautiful vintage-looking maps. The maps feature fictional buildings, towns, cities, and countries, plus mountains and rivers, oceans and seas. Ever wondered where the Bates Motel was based? Or Bedford Falls in It's a Wonderful Life? The authors have taken years to research the likely geography of thousands of popular culture locations that have become almost real to us. Sometimes these are easy to work out, but other times a bit of detective work is needed, and the authors have been those detectives. By looking at the maps, you'll find that the revolution at Animal Farm happened next to Winnie the Pooh's home. Each location has an extended index entry plus coordinates so you can find it on the maps. Illuminating essays accompanying the maps give a great insight into the stories behind the imaginary places, from Harry Potter's wizardry to Stone Age Bedrock in the Flintstones. A stunning map collection of invented geography and topography drawn from the world's imagination. Fascinating and beautiful, this is an essential book for any popular culture fan and map enthusiast. *His Last Bow* Arthur Conan Doyle, 2025-01-03 There's an east wind coming, such a wind as never blew on England, yet Arthur Conan Doyle's *His Last Bow* features a selection of Sherlock Holmes stories written at a time of growing tensions in Europe. First published as a collection in 1917 against the backdrop of the First World War, the volume covers tales that deviate from the pattern of earlier Sherlock adventures, which focus on individual culpability and the comfort of a simplistic restoration of order. The titular story in this collection was influenced by Doyle's personal experience of the war.

and in these tales the solutions to seemingly small scale local mysteries uncover crimes concerning national security or even expose the covert evil actions of organizations and powerful dictators This edition contains a new introduction by Trish Ferguson which offers a richly detailed contextual backdrop for understanding the work as an act of war service designed to offer a morale boost to both British troops abroad and readers at home ABOUT THE SERIES For over 100 years Oxford World s Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford s commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

[The Uncanny Rise of Medical Hypnotism, 1888-1914](#) Gordon David Lyle Bates,2023-12-02 This book explores the improbable rise of medical hypnotism in Victorian Britain and its subsequent assimilation and neglect It follows the careers of the New Hypnotists Charles Lloyd Tuckey John Milne Bramwell George Kingsbury and Robert Felkin This loosely knit group all trained with the Suggestion School of Nancy and published books on hypnotism They had to confront the many public and medical prejudices against the trance state which had persisted after the scandalous disgrace of John Elliotson and medical mesmerism fifty years before Hypnotism was a highly contested technology and in the 1890s the debates about safety and utility were fought in the national newspapers as well as the medical journals The new hypnotists took on the might of the medical institutions personified by Ernest Hart Editor of the British Medical Journal However their timing was propitious as the rise of faith healing forced the medical profession to confront the non physical therapeutic aspects of the doctor patient relationship The hypnotic discourse was shaped by these developments but also by the fascination of the general public novelists occultists psychic investigators educationalists and spiritualists in the myriad possibilities of the trance state Despite growing interest in the prehistory of British psychology and talking therapies and the recent challenges to the primacy of Freudian histories there are few accounts of the development of British eclectic therapy This book uses the New Hypnotists as a lens to examine Victorian medicine and society exploring their role in establishing the term psychotherapy and legitimising medical hypnotism a precursor of psychological therapies

The Colonial Conan Doyle Catherine Wynne,2002-07-30 Arthur Conan Doyle is often perceived as the quintessential Englishman patriotically devoted to the Crown and the empire s defender and apologist But such a relegation is both limiting and simplistic Born in Scotland to Irish Catholic parents Doyle s heritage is complex His paternal grandfather John Doyle had originally left Ireland for London in the early 19th century his father was committed to the cause of Irish separatism and his uncle resigned from his position as main cartoonist for IPunch R after the journal launched an attack on the Pope Consequently British imperialism Irish nationalism and Catholic allegiance converge uneasily in his works This book examines the resulting tensions between imperialism and colonialism in his writings It argues that his thematic obsessions with topography race psyche and sexuality stem from his

ambivalence toward his own heritage The volume repositions Doyle and redresses current critical approaches that have seen him solely as the advocate of empire and have ignored his colonial background It explores how his fictions occur within a colonial context the complexity of which is evident in gothic tropes of shifting landscapes disguised criminalities spiritualism and sexual anomalies and conflicts **Walk to Win** Fred A. Stutman, 2003-01-22 Dr Walk s new bestseller Learn how to walk for health and fitness with this new guide to shopping mall walking Walking is the key to feeling better without strenuous exercise **Thirty-Three by Arthur Conan Doyle** Arthur Conan Doyle, Sir, 1986-10-01
