Animation Principles With Flash 5:

Flash 5 Visual Insight Sherry London, Dan London, 2001 London's in depth guide teaches the fundamentals of Flash 5 while focusing on projects that show the full range of its capabilities. It appeals to visual learners who need to see rather than read how to create something. *Flash 5 Hands-on Training* Kymberlee Weil, Garo Green, Lynda Weinman, 2002. *Untitled Flash 5 Hands on Training* is a tutorial based learning tool for beginning Flash designers from Lynda Weinman's best selling *Hands on Training* series. With no prior experience using Flash, users will be led through a series of exercises that start quite simply and increase in complexity until they have learned how to use all of the basic tools in Flash 5. Beginning with the drawing tools, users will learn how to create art and basic shape tweens, convert their art to symbols, and then create motion tweens and gradually build more complex animations and buttons by learning how to use multiple scenes, layers, movie clips, and the basic ActionScripting features that ship with the program. Like the other books in the *Hands on Training* series, this book comes with a companion CD-ROM that includes a trial version of the software, the complete exercise files, and QuickTime movies featuring demonstrations from the authors. **The Flash Animator** Sandro Corsaro, 2002-06-11. Intrigued by digital animation? Know a little bit about Macromedia Flash but are ready to take it to the next level? *The Flash Animator* will teach you how to create traditional looking animations faster, cheaper, and with more delivery options. Sandro Corsaro helps you to develop a solid understanding of the principles of traditional animation and then guides you step by step through bringing those principles to life with Flash. Topics range from creating basic ball bounces to managing complex character design, sound, and optimization issues. Interviews with numerous experts in the animation industry, complete with beautiful artwork and insights from feature film animators and Web pioneers, are included to inspire you along your Flash animation path. Interviewees include Iwao Takamoto, creator of Scooby Doo; Brad Abelson, Storyboard Artist, *The Simpsons*; Joe Shields, Joe Cartoon, *Tom Winkler Doodie.com*; and many other influential animators. The CD contains all source files for the book's examples, exclusive animation files, and bonus Macromedia Flash cartoons. There is also an in depth audio interview with Iwao Takamoto. **Macromedia Flash 5 Fast and Easy Web Development** Howie Green Design, Howie Green, 2000. Covering both Mac and Windows, this title takes a visual approach to creating outstanding projects with Flash 4. A perfect format for novices and professionals alike, it goes beyond the normal Flash tutorials, taking users through various Flash basics and then uses applets on the CD-ROM to show users how they were created. *Flash 5 in an Instant* Michael Toot, Sherry Kinkoph, 2001. Are you a visual learner who needs results right away? Do you prefer to focus on the essentials and skip the bells and whistles? If so, then this book is for you. Open it up and you'll find extra large step by step screen shots that show you how to tackle over 100 key Flash 5 tasks, from drawing a custom line and adding text to creating a motion tween and assigning button actions. Fast coverage of the essentials helps you get right to work. Focused two page lessons cover a single task. Visual format shows you step by step how it's done in an instant. Your books are extraordinary. I buy them for friends.
