Computer Facial Animation Frederic I. Parke, Keith Waters, 2008-09-25 This comprehensive work provides the fundamentals of computer facial animation and brings into sharper focus techniques that are becoming mainstream in the industry Over the past decade since the publication of the first edition there have been significant developments by academic research groups and in the film and games industries leading to the development of morphable face models performance driven animation as well as increasingly detailed lip synchronization and hair modeling techniques These topics are described in the context of existing facial animation principles The second edition provides an up to date source for professionals and academic researchers working in the field of facial animation

New York Animation 1966-1999 Robby Gilbert, 2025-08-13 Focusing on a specific period in New York s rich animation history this book examines the unique styles movements personalities and projects that emerged in the city from 1966 to 1999 During this era New York became a hub of significant stylistic cultural and market transformations playing a crucial role in nurturing the rise of independent animation as well as the development of digital production platforms and methods This shift ultimately led to the decline of cel and film techniques which had been the dominant means of animation production until that time Nonetheless it also provided independent artists with opportunities to influence the future direction of animation A central theme of this work links the efforts in New York to today s creator driven animation illustrating a direct connection between New York independents and properties such as Sesame Street MTV Adult Swim and The Simpsons

Animation Chris Pallant, 2021-01-01 Animation Critical and Primary Sources is a major multi volume work of reference that brings together seminal writings on animation studies Gathering historical and contemporary texts from a wide ranging number of sources the volumes provide a key resource in understanding and studying the past and future directions of animation studies The four volumes thematically trace animation studies from its many definitions or a lack thereof to the institutional nature of animation production to

establishing greater space within animation discourse for the consideration of broadcast and interactive animation and finally giving greater contextual understanding of the field of animation studies by focusing on Authorship Genre Identity Politics and Spectatorship thus enabling readers to engage more deeply with the ideas discussed in the final volume Ordering the collection in this way avoids imposing an overly simplistic chronological framework thereby allowing debates that have developed over years and even decades to stand side by side Each volume is separately introduced and the essays structured into coherent sections on specific themes
