Mistake Power Juliana Vilke,2013-09-19 We all make mistakes but imagine losing your financial solvency or your childrens inheritance to the failing economy Buying low and selling higher is the name of the game but we often do the opposite As the stock market rises we remain on the sidelines watching as others are reaping monetary rewards We want to rebuild but we are fearful of losing additional funds in todays risky market These challenges have plagued investors for decades many of whom have lost much of their investments in various recessions Even so you can transform your investment mistakes into financial gains Making a comeback from investment errors requires an understanding of some basic elements of investing such as predictable investor behavior insight from hindsight risk reward consideration chance of loss measurement and data and analysis All investors experience the same psychological emotions and are susceptible to making the same investing errors of judgment thus the winners and losers are determined by how they play the game Author Juliana Vilke offers winning investment strategies for women along with advice from wealthy investors who learned a great deal from their investment mistakes She offers time tested advice to help any woman take control of her investing future

Who Needs the Fed? John Tamny,2016-05-24 The Federal Reserve is one of the most disliked entities in the United States at present right alongside the IRS Americans despise the Fed but they re also generally a bit confused as to why they

distrust our central bank Their animus is reasonable though because the Fed s most famous function targeting the Fed funds rate is totally backwards John Tamny explains this backwardness in terms of a Taylor Swift concert followed by a ride home with Uber In modern times he points out the notion of credit has been perverted so that most people believe it s money and that the supply of it can therefore be increased This false notion has aggrandized the Fed with power that it can t possibly use wisely The contrast between the grinding poverty of Baltimore and the abundance of Silicon Valley helps illustrate the problem along with stories about Donald Trump Robert Downey Jr Jim Harbaugh the Michigan football coach and robots Who Needs the Fed makes a sober case against the Federal Reserve by explaining what credit really is and why the Fed s existence is inimical to its creation Readers will come away entertained much more knowledgeable and prepared to argue that the Fed is merely superfluous on its best days but perilous on its worst *The Warren Buffett Portfolio* Robert G. How Capitalism Will Save Us Steve Forbes, Elizabeth Ames, 2011-06-21 Has capitalism failed Is it fundamentally greedy and immoral enabling the rich to get richer Are free markets Darwinian places where the most ruthless crush smaller competitors where vital products and services are priced beyond the ability of many people to afford them Capitalism is the world's greatest economic success story It is the most effective way to provide for the needs of people and foster the democratic and moral values of a free society Yet the worst recession in decades has widely and understandably shaken people's faith in our system Even before the current crisis capitalism received a bad rap from a culture ambivalent about free markets and wealth creation This crisis of confidence is preventing a full recognition of how we got into the mess we're in today and why capitalism continues to be the best route to prosperity

How Capitalism Will Save Us transcends labels such as conservative and liberal by showing how the economy really works When free people in free markets have energy to solve problems and meet the needs and wants of others they turn scarcity into abundance and develop the innovations that are the foremost drivers of economic growth The freedom of democratic capitalism is for example what enabled Henry Ford to take a plaything of the rich the car and transform it into something affordable to working people In the capitalist system economic growth doesn't mean more of the same grinding out a few more widgets every year It's about change to increase overall wealth and give more people the chance for a better life
