The Madness of Cthulhu Anthology (Volume One) S. T. Joshi, 2014-10-07 Sixteen stories inspired by the 20th century's great master of horror H P Lovecraft and his acknowledged masterpiece *At the Mountains of Madness* in which an expedition to the desolation of Antarctica discovers evidence of an ancient ruin built by horrific creatures at first thought long dead until death strikes the group All but two of the stories are original to this edition and those reprints are long lost works by science fiction masters Arthur C Clarke and Robert Silverberg

Science Fiction and the Imitation of the Sacred Richard Grigg, 2018-06-14 This book examines science fiction's relationship to religion and the sacred through the lens of significant books films and television shows It provides a clear account of the larger cultural and philosophical significance of science fiction and explores its potential sacrality in today's secular world by analyzing material such as Ray Bradbury's classic novel *The Martian Chronicles* films *The Abyss* and *2001 A Space Odyssey* and also the *Star Trek* universe Richard Grigg argues that science fiction is born of nostalgia for a truly Other reality that is no longer available to us and that the most accurate way to see the relationship between science fiction and traditional approaches to the sacred is as an imitation of true sacrality this he suggests is the best option in a secular age He demonstrates this by setting forth five definitions of the sacred and then in consecutive chapters investigating particular works of science fiction and showing just how they incarnate those definitions *Science Fiction and the Imitation of the Sacred* also considers the qualifiers that suggest that science fiction can only imitate the sacred not genuinely replicate it and assesses the implications of this investigation for our understanding of secularity and science fiction
