2004-2005 Ed Bowker Staff, Staff Bowker, Ed, 2004 Electronic Consumer Contracts in the Conflict of Laws Zheng Sophia Tang, 2009-09-09 The application of private international law to electronic consumer contracts raises new complex and controversial questions It is new because consumer protection was not a private international law concern until very recently and e commerce only became an important commercial activity within the last ten years E consumer contracts generate original questions which have not been considered under traditional private international law theories It is complex because it has to deal both with difficulties raised by consumer contracts and the challenges of e commerce Reasonable resolutions to consumer contracts may prove inappropriate in e commerce while effective approaches to resolving private international law problems in e commerce may be improper for consumer contracts It is controversial because it concerns the conflicting interests of consumers and businesses in a fast moving commercial environment a fair balance is therefore hard to achieve Without proper solutions provided by private international law consumers will not be confident about purchasing online and businesses will face unreasonable risk and participation costs in e commerce Updated and properly designed private international law rules are essential to the further development of e commerce This book aims to provide an answer to the urgent requirement for legal certainty security and justice in e consumer contracts It is primarily concerned with existing approaches to jurisdiction and choice of law issues in e consumer contracts in the European Community and England but some typical approaches in other jurisdictions are also examined Based on the analysis and the comparative study of the existing law the book seeks to provide a proposal as to what the law should be in order to provide certainty to both parties to provide reasonable protection to consumers and to promote the development of e commerce Federal Rules of Civil Procedure United States. Obstacles to Fairness in Criminal Proceedings John D Jackson, Sarah J Summers, 2018-03-22 This volume considers the way in which the focus on individual rights may constitute an obstacle to ensuring fairness in criminal proceedings. The increasingly cosmopolitan nature of criminal justice forcing legal systems with different institutional forms and practices to interact with each other as they attempt to combat crime beyond national borders has accentuated the need for systems to seek legitimacy beyond their domestic traditions. Fairness expressed in terms of the right to a fair trial in provisions such as Article 6 of the European Convention on Human Rights has emerged across Europe as the principal means of guaranteeing the legitimacy of criminal proceedings. The consequence of this is that criminal procedure doctrines are framed overwhelmingly in constitutional terms. The protection of defence rights is necessary to restrict and legitimate the state's mandate to prosecute crime. Yet there are various problems with relying solely or predominantly on defence rights as a

means of ensuring that proceedings are fair or legitimate and these issues are rarely discussed in the academic literature In this volume scholars from the disciplines of law philosophy and sociology challenge various normative assumptions underpinning our understanding of fairness in criminal proceedings **Symposium, a New Constitutional Order?** ,2006
