Geometries of Learning Pavan Turaga, Yunye Gong,P. Thomas Fletcher,Ajay Divakaran,2025-04-25 Deep neural networks have demonstrated great success in many computer vision applications where intelligent recognition and analysis are performed based on high dimensional visual data However in contrast to the rapid development of advanced architectures and training schemes developments have been limited in the theory of analyzing deep neural networks and deep learning training through the lens of geometries The lack of such analysis prevents further understanding and affects the acceptance of deep neural networks for practical applications For example deep neural networks are often challenged by their vulnerability to adversarial attacks their lack of systematic guarantees on effectiveness and stability and their degraded generalization capability outside the distribution of training data
