5 Years With A Mad Man:

Adman's Dilemma Paul Rutherford, 2018-01-01 The Adman's Dilemma is a cultural biography that explores the rise and fall of the advertising man as a figure who became effectively a licensed deceiver in the process of governing the lives of American consumers. Apparently this personage was caught up in a contradiction both compelled to deceive yet supposed to tell the truth. It was this moral condition and its consequences that made the adman so interesting to critics, novelists, and eventually filmmakers. The biography tracks his saga from its origins in the exaggerated doings of P. T. Barnum, the emergence of a new profession in the 1920s, the heyday of the adman's influence during the post-WW2 era, the later rebranding of the adman as artist, until the apparent demise of the figure symbolized by the triumph of that consummate huckster Donald Trump. In *The Adman's Dilemma*, author Paul Rutherford explores how people inside and outside the advertising industry have understood the conflict between artifice and authenticity. The book employs a range of fictional and nonfictional sources, including memoirs, novels, movies, TV shows, websites, and museum exhibits, to suggest how the adman embodied some of the strange realities of modernity.

Trauma and Nostalgia Lucien Liere, Srdjan Sremac, 2025-10-01 This volume reflects on the significance of nostalgia in the construction of traumatic pasts both on an individual and a collective level. By employing an interdisciplinary approach, the volume enhances our understanding of how the entanglements of trauma and nostalgia influence the construction and development of identity. Scholars from a range of academic disciplines and contexts explore the integration of nostalgic memories in discussions of trauma, attending to their interactions in public spaces, patriotic symbolism, and rituals, popular culture, cinema, religion, museums, and memorials. The contributors emphasize the role of media and other mass cultural technologies in disseminating images and narratives related to traumatic and nostalgic experiences. These essays ultimately bring to light the frequently overlooked role of nostalgic longing in shaping the discursive, visual, and material aspects of collective trauma.

Analyzing Mad Men Scott F. Stoddart, 2011-08-12 AMC's episodic drama *Mad Men* has become a cultural phenomenon, detailing America's preoccupation with commercialism and image in the Camelot of the 1960s Kennedy era. America, while self-consciously exploring current preoccupations, The 12 critical essays in this collection offer a broad interdisciplinary approach to this highly relevant television show, examining *Mad Men* as a cultural barometer for contemporary concerns with consumerism, capitalism, and sexism. Topics include New Historicist parallels between the 1960s and the present day, psychoanalytical approaches to the show, the self as commodity, and the Age of Camelot as an Age of Anxiety, among others. A detailed cast list and episode guide are included. Instructors considering this book for use in a course may request an examination copy here.
