2.4 The proportion of all abortions that are estimated to be least safe increases as abortion laws become more restrictive.

• **NOTES TO FIGURE 2.4** Least restrictive consists of countries in abortion legality category 6; moderately restrictive, categories 4 and 5; and most restrictive, categories 1–3. Safe abortions are those performed using a safe method with an appropriately trained provider; less-safe abortions meet only one of those criteria; and least-safe abortions meet neither. *Source: reference 7.*
