Hansen,Francesco DiCasteri,2012-12-06 The emergence of landscape ecology during the 1980s represents an impor tant maturation of ecological theory Once enamored with the conceptual beauty of well balanced homogeneous ecosystems ecologists now assert that much of the essence of ecological systems lies in their lumpiness Patches with differing properties and behaviors lie strewn across the land scape products of the complex interactions of climate disturbance and biotic processes It is the collective behavior of this patchwork of eco systems that drives pattern and process of the landscape is not an end point This realization of the importance of patch dynamics in itself however Rather it is a passage to a new conceptual framework the internal workings of which remain obscure The next tier of questions includes What are the fundamental pieces that compose a landscape How are these pieces bounded To what extent do these boundaries influence communication and interaction among patches of the landscape Will con sideration of the interactions among landscape elements help us to under stand the workings of landscapes At the core of these questions lies the notion of the ecotone a term with a lineage that even predates ecosystem Late in the nineteenth century F E Clements realized that the transition zones between plant communi ties had properties distinct from either of the adjacent communities Not until the emergence of patch dynamics theory however has central signif icance of the ecotone concept become apparent *An Eagle's Heart* Scott Butcher,2014-01-06 The Merlin Falcon kills an egg snatcher A single act of defiance that intertwines the Falcon s fate with many others as Grandfather Crow seeks revenge Fending off starvation the Merlin Falcon and his mate make a desperate bid for new territory It s dangerously close to the Stone Forest and the realm of the egg snatchers Indiscriminate killers friends with none the crows are bent on revenge

The small Merlin has the heart of an Eagle but he cannot stand against them alone The Old Man may be an ally he hates the crows too He finds solace in nature but the Merlin is a bird of prey and threatens the birdlife that visits his property Others are affected by the Merlin s defiance The vengeful Grandfather Crow maims a Chickadee and gives the tiny bird a terrible choice Find and betray the Merlin Falcon or every bird in his grove will die It will be a murder of crows      **Alpine**
