Aborted Women Silent No More:

Aborted Women David C. Reardon, 1987 **Lilies That Fester** John Bossert Brown, 2022-12-20 The twentieth century promised much in terms of progress Europe was at peace and America was poised to become a world superpower Certain religious leaders envisioned new programs to help the poor while others pondered plans to evangelize the world Protestants in America were divided over issues such as biblical authority and social programs but there was a surface unity and a widespread agreement shared with Catholic and Orthodox Christians about the sanctity of human life an ethic rooted in the Bible and church history Seventy nations responding to medical advances in obstetrics fetology and a growing concern for women s health had moved to prohibit abortion Today 120 years later there is a deep division among Christians and in American society about abortion and much else The causes are no doubt complex but several things are clear Worldwide there have been over one billion unborn children destroyed by abortion There have been seventy three million unborn children destroyed by abortion in the United States over half of them to women who identify as Christians In a century of massive violence due to war planned famines mass executions and terror abortion reigns supreme That the Judeo Christian ethic of the sanctity of life has been shredded owes much to the scandal of Christian discipleship **Tough Love** Cynthia Burack, 2014-02-01 Exposes how ex gay and postabortion ministries operate on a shared system of thought and analyzes their social implications A staple of the culture wars the struggle between Christian conservatives and progressives over sexuality and reproductive rights continues Focusing on ex gay ministries geared to helping same sex attracted people resist their sexuality and postabortion ministries dedicated to leading women who have had an abortion to repent that decision Cynthia Burack argues that both are motivated and characterized by a strain of compassion that is particular to Christian conservatism rather than a bias and hatred toward sexual minorities and sexually active women This compassion reproduces the sexual ideology of the Christian right and absolves Christian conservatives from responsibility for stigma and other forms of harm to postabortive and same sex attracted people Using the democratic theory of Hannah Arendt the popular fiction of Ayn Rand and the psychoanalytic thought of Melanie Klein Burack studies the social and political effects of Christian conservative compassion Toxic Mix? Herbert N. Foerstel, 2009-12-09 This book presents a comprehensive analysis of the contentious relationship between the White House and the scientific community from the FDR administration to the Obama administration Toxic Mix A Handbook of Science and Politics takes a topic very much in the center of public debate in the last decade and places it in a revealing historical context It follows the often contentious relationship of science and politics from the FDR era to the current Obama administration highlighting the many highly charged moments when the two were in conflict Toxic Mix ranges across the major areas of scientific inquiry with public policy implications including atomic energy space science public health stem cells sexual reproduction environmental science global warming and evolution to examine important events where political imperatives and scientific research were at odds In addition the book looks at another

important area where politics and science are at cross purposes immigration as many of our most accomplished degree earners are foreign born and are unable to stay and work in the United States A final chapter analyzes the attempts by the early Obama administration to build public policy that embraces science rather than manipulates it
