Above Beyond 1941 1945:

Courage and Valor, Above and Beyond Edwin C. Tingstrom, 2013-05-02 Ed Tingstrom is passionate for history which has led to considerable study of U S history with emphases on military history However he has detected inconsistencies in the recording of historical events which led him to ask questions He would research and ferret out the answers by utilizing the National Archives Library of Congress and other institutions to provide the answers he sought History has always been and will always be my passion My quest is to share this passion with the younger generations in hopes of igniting a similar spark in them History lives in all of us all we have to do is seek the truth and remember Mr Tingstrom is a life member of the Veterans of Foreign Wars VFW and the Disabled American Veterans DAV He enjoys giving lectures in history and military service at local high schools and colleges as well as serving as a docent at the VFW museum which houses a collection of vintage poster art and war memorabilia dating back to the turn of the twentieth century This is his first book This book is dedicated to my wife Deirdre Whose constant encouragement and love provided me with the strength and conviction to continue To Professor Ransford Hopkins Professor of History Moorpark College California who lit the spark which turned into a roaring fire to write this book and to seek out history where ever it is found and share it with others *Imperial Japan's Allied Prisoners of War in the South Pacific* C. Kenneth Quinones, 2021-09-30 Three weeks after Imperial Japan's surrender five men dressed in baggy khaki uniforms stared at the camera They and two colleagues were the only survivors out of the 210 Allied airmen which Imperial Japan had imprisoned in paradise Joining them were 18 British soldiers the only survivors of 600 of their countrymen similarly but separately imprisoned Another 10 000 Allied soldiers and civilians were also imprisoned on the South Pacific island of New Britain More than half died before liberation What motivated such inhumane treatment This book's quest for an answer traces the genesis of Bushido Imperial Japan's martial code and surveys the prisoners recollections of their ordeal as the Battle for Rabaul raged around them from 1942 to March 1944 **Silent Warriors of World War II** Lance Q. Zedric, 1995 The Alamo Scouts Sixth Army's Special Reconnaissance Unit of World War II provided intelligence gathering and tactical reconnaissance in the Pacific Theatre During the war they performed over 106 successful missions in the Admiralty Islands New Guinea and the Philippines most deep behind enemy lines The Scouts took part in liberating two POW camps The Scouts evolved from a simple reconnaissance unit to a sophisticated intelligence unit supplying and coordinating large scale guerilla operations on Leyte and Luzon They did this without losing a man killed or captured The Scouts are now recognised as forerunners of the modern Special Forces **The A to Z of World War II** Anne Sharp Wells, 2009-09-28 World War II dominates world history today as it dominated world attention over 60 years ago In spite of the alliances that bound many of the same participants the war was essentially two separate but simultaneous conflicts one involved Japan as the major antagonist and took place mostly in Asia and Pacific and the other initiated by Germany and Italy was contested mainly in Europe North Africa the Mediterranean and the Atlantic The A to Z of World War

II The War Against Japan traces the brutal conflict from Japan's seizure of Chinese territory in 1931 through the onset of war with the Western Allies in 1941 to the use of atomic weapons by the United States in 1945. It also addresses the aftermath of the war including the formation of the United Nations and the American occupation of Japan. As the first of two volumes covering World War II, this volume concentrates on the war in Asia and the Pacific so the user benefits from the comprehensive explanations of the people, places and events that shaped much of that region's 20th century history.

Science and the Pacific War Roy M. MacLeod, 1999-12-31. In 1995 the fiftieth anniversary of the end of the Second World War occasioned many reflections on the place of science and technology in the conflict. That the war ended with Allied victory in the Pacific theatre inevitably focussed attention upon the Pacific region and particularly upon the Manhattan project and its outcome. It was in the Pacific that Western physics and engineering gave birth to the Atomic Age. However, the Pacific war had also proved a testing time and a testing space for other disciplines and institutions. Extreme environments and operational distances and the fundamental demands of logistics required the Allies and the Japanese to innovate many scientific and technological practices. Just as medicine and botany were called upon to fight tropical diseases and insect pests, so engineers, anthropologists and geographers were called upon to understand local conditions and climates and to work with local peoples whose traditional lives were changed forever by the experience. At the same time the war played midwife to a host of new developments, not least in scientific intelligence and in chemical and biological weapons which were to acquire far greater importance after 1945. **Air Force Magazine**, 1983. *ABOVE & BEYOND* TILLMAN

BARRETT, 2002-09-17. From 1918 to 1972 over 100 American aviators received the United States highest military decoration. Through a combination of interviews with the surviving fliers and in-depth research Tillman presents the incredibly valiant and inspiring stories behind the medals and in many cases sets the official record straight. *Professional Journal of the United States Army*, 1983. **A Leader Born** Alton Keith Gilbert, 2006-08-19. This biography of one of World War II's great military leaders is a rich tribute to a staunch American naval hero. WWII Quarterly. John S. Slew. McCain was an old school sailor. Wiry, profane, a cusser and a gambler, he reminded more than one observer of Popeye. He was also a pioneer in the hard hitting naval tactics that brought Imperial Japan to its knees. McCain graduated from Annapolis in 1906 and served aboard an armored cruiser in World War I. Perceiving the future of naval warfare, he earned his aviation wings in 1936 and by 1939 McCain was commander of the aircraft carrier USS Ranger. He was thus well placed to play a leading role in America's cut and thrust war with the Japanese across the broad expanses of the Pacific. In 1942 he was made commander of all land-based aircraft during the campaign for Guadalcanal. Though he took his share of blame for the disaster at Savo Island, he counterattacked with every means at his disposal to the point of commandeering the planes of the crippled carriers Enterprise and Saratoga to reinforce US strength on Henderson Field. By the time the US returned to the Philippines, McCain was leading a fast carrier task force under William Bull Halsey. When asked what he thought about his carrier commander

Halsey replied Not much more than my right arm McCain's carrier group would destroy thousands of enemy planes and hundreds of ships with aggressive swarming tactics Four days after Japan officially surrendered McCain died in his bed His name has lived on however through his son who became commander of US naval forces in the Pacific and his grandson John S McCain III carrier pilot Vietnam POW and United States Senator Drawing upon a wealth of primary sources including information provided by the McCain family as well as an expert grasp of the titanic battles waged by the US armed forces in the Pacific Alton Keith Gilbert has provided the fullest account of the Admiral John McCain's life yet written **Historical Dictionary of World War II** Anne Sharp Wells, 2013-12-24 This dictionary covers the complex and costly conflict that began when Germany ruled by Adolf Hitler and the Nazi Party invaded neighboring Poland on 1 September 1939 and concluded when Germany surrendered on 7 9 May 1945 leaving much of the European continent in ruins and its population devastated The war against Germany Italy and the other European Axis members was fought primarily in Europe the Mediterranean the Middle East East and North Africa and the Atlantic Ocean The Axis powers were defeated by the Allies led by the Grand Alliance of Great Britain the United States and the Union of Soviet Socialist Republics The Historical Dictionary of World War II The War against Germany and Italy relates the history of this war through a chronology an introductory essay maps and photos and an extensive bibliography The dictionary section has more than 300 cross referenced entries on the countries and geographical areas involved in the war as well as the nations remaining neutral wartime alliances and conferences significant civilian and military leaders and major ground naval and air operations This book is an excellent access point for students researchers and anyone wanting to know more about World War II
