Cultural and Creative Mural Spaces Virginia Santamarina-Campos,Eva-María Martínez-Carazo,María de Miguel Molina,2021-02-15 This book puts into context the evolution of mural art in recent years particularly the case of the contemporary muralism in Uruguay While the focus of this volume revolves around Uruguay the editors demonstrate that circumstances found in Uruguay are also reflected widely in a large number of cases worldwide Mural art has evolved from an elite audience to a more popular objective At the same time

it does not lose the necessity of high value artists that not only technically but also conceptually will be able to connect to the audience and provide a sense of identity and necessity of preservation of this art This leads to a down top approach where different actors take part in the process from the conceptualization to the conservation Moreover mural art has been studied as a driver of local economic development attracting visitors and tourists can access these open air museums easily This book is of interest to students and researchers working in fine art heritage and museum studies **Stolen Song** Eliza

Zingesser,2020-03-15 Stolen Song documents the act of cultural appropriation that created a founding moment for French literary history the rescripting and domestication of troubadour song a prestige corpus in the European sphere as French This book also documents the simultaneous creation of an alternative point of origin for French literary history a body of faux archaic Occitanizing songs Most scholars would find the claim that troubadour poetry is the origin of French literature uncomplicated and uncontroversial However Stolen Song shows that the Frenchness of this tradition was invented constructed and confected by francophone medieval poets and compilers keen to devise their own literary history Stolen Song makes a major contribution to medieval studies both by exposing this act of cultural appropriation as the origin of the French canon and by elaborating a new approach to questions of political and cultural identity Eliza Zingesser shows that these questions usually addressed on the level of narrative and theme can also be fruitfully approached through formal linguistic and manuscript oriented tools
