Dark Angel: Skin Game Max Allan Collins,2003-02-04 The saga of Dark Angel continues Someone is killing normal humans in the fog enshrouded city of Seattle The murders are brutal and grisly but inside Terminal City they barely cause a ripple of concern The transgenics who live there have problems of their own In an area under siege by the oppressive arm of the police the transgenics must protect their fledgling colony against the outside world a world that eyes them with contempt and suspicion and will do anything to be rid of them As the killings escalate Joshua comes to Max with a dire suspicion the killer may be one of their own Tensions are high between normal humans and transgenics and many inside the protected City would just as soon let the humans fend for themselves Yet Max and her inner circle know they must investigate the crimes and stop the bloodshed Doing nothing would simply give the normals more reasons to hate But what they discover will shock even the most jaded among them and expose a sinister agenda that leads to an old nefarious foe **Voyage to Discovery**

Retelling Stories, Framing Culture John Stephens, Robyn McCallum, 2013-01-11

What happens to traditional stories when they are retold in another time and cultural context and for a different audience This first of its kind study discusses Bible stories classical myths heroic legends Arthurian romances Robin Hood lore folk tales oriental tales and other stories derived from European cultures One chapter is devoted to various retellings of classics from Shakespeare to *Wind in the Willows* The authors offer a general theory of what motivates the retelling of stories and how stories express the aspirations of a society An important function of stories is to introduce children to a cultural heritage and to transmit a body of shared allusions and experiences that expresses a society's central values and assumptions However the cultural heritage may be modified through a pervasive tendency of retellings to produce socially conservative outcomes because of ethnocentric androcentric and class based assumptions in the source stories that persist into retellings Therefore some stories such as classical myths are particularly resistant to feminist reinterpretations for example while other types such as folktales are more malleable In examining such possibilities the book evaluates the processes of interpretation apparent in retellings Index included
