

The Ideal Hybrid Workplace Checklist

Transitioning to a hybrid workplace means analyzing and adjusting your current technology so that it supports both office and at-home employees. To help your workforce excel in a hybrid workplace environment, you'll need:

Meeting Room Collaboration

Optimize teamwork with technology that connects at-home and office employees. Consider simple to use displays that feature integrated video, audio and conferencing tools.

Robust Cybersecurity

Multi-layered security helps to protect shared files and devices wherever they are being used. Make sure your network is routinely checked and updated to identify vulnerabilities and prevent incidents.

The Right Hardware

With team members coming to and from the office, productivity from anywhere is dependent on their hardware setup. Consider reliable laptops and accessories built for travel as well as desktop printers for home offices.

Video and Phone Conferencing

Serving users that are no longer tethered by wires and physical locations can be complex. Simplify company-wide communication with an all-inclusive, cloud VoIP phone system with web, audio and video conferencing tools.

Product Management in Practice Matt LeMay, 2022-05-16 Product management has become a critical function for modern organizations from small startups to corporate enterprises And yet the day to day work of product management remains largely misunderstood In theory product managers are high flying visionaries who build products that people love In practice they're hard working facilitators who bring clarity and focus to their teams In this thoroughly revised and expanded edition Matt LeMay provides real world guidance for current and aspiring product managers Updated for the era of remote and hybrid work this book provides actionable answers to product management's most persistent and confounding questions starting with What exactly am I supposed to do all day With this book you'll learn What the day to day work of product management entails and how to excel at it Why no job title or description will resolve the ambiguity of your role How to bridge the false dichotomy between strategy and execution Why the temptation to focus on decks and documentation can be

bad for your team and for you How to prioritize your time and pick your battles Handbook of Research on Cybersecurity Risk in Contemporary Business Systems Adedoyin, Festus Fatai, Christiansen, Bryan, 2023-03-27 The field of cybersecurity is becoming increasingly important due to the continuously expanding reliance on computer systems the internet wireless network standards such as Bluetooth and wi fi and the growth of smart devices including smartphones televisions and the various devices that constitute the internet of things IoT Cybersecurity is also one of the significant challenges in the contemporary world due to its complexity both in terms of political usage and technology The Handbook of Research on Cybersecurity Risk in Contemporary Business Systems examines current risks involved in the cybersecurity of various business systems today from a global perspective and investigates critical business systems Covering key topics such as artificial intelligence hacking and software this reference work is ideal for computer scientists industry professionals policymakers researchers academicians scholars instructors and students **Virtual Technical Services** Mary Beth Weber, Melissa De Fino, 2022-04-25 Prior to the COVID pandemic there was little published information to guide technical services operations on how to deal with crises and emergencies Viewed as a backroom operation by administration little thought historically has been given to how these employees might protect equipment and resources and continue to provide services that seamlessly support the rest of the library Virtual Technical Services A Handbook is the first to address emergency and crisis planning specifically for technical services The authors address how to create an emergency plan and how to prepare for an uncertain future that will undoubtedly include other threats to our health and safety We discuss how the pivot to remote work can revolutionize technical services librarianship and allow us to better serve the needs of a 21st Century library As the WFH period extended longer than anticipated libraries and other organizations realized both the challenges and benefits of working remotely WFH is about more than just doing one's job and we focus on employees as individuals with needs that include work life balance self care and the flexibility to meet life circumstances including childcare eldercare and appointments A unique feature of our book is the focus on employee well being including burnout and self care Prior to COVID 19 employee well being was typically not emphasized as part of personnel management The risks to our health and safety and being removed from the physical workplace provided the opportunity to re examine priorities and reframe them to forge a stronger and more collaborative relationship between employers and employees Technical services personnel in particular are subject to burnout as their operations are frequently understaffed and they face competing demands of serving both libraries physical needs and supporting electronic and digital resources Management in a remote work environment has challenges that are not present in an on site operation Communication setting expectations and documentation and training take on added significance when WFH as does accountability Our book addresses these aspects of management through a WFH lens The book also covers the return to work after a shift to remote whether it is completely on site hybrid or some combination Normalization determining staffing levels employee

accommodations and an adjustment period are discussed Since most technical services personnel have not previously had to pivot to remote on short notice and for an extended period the book addresses these issues for libraries as they make decisions about repopulating their workplaces
