there is a growing number of caregivers in our society Caregivers often feel isolated apprehensive exhausted and overwhelmed They desperately need relief as well as ongoing support Nurses and caregivers reach out and become angels for others They are compassionate intelligent and caring beings that provide hands on care to help the sick to heal or comfort them as they die Nurses and caregivers are not invincible they also need to take care of themselves The need to be touched by another and to share personal experiences are universal human requirements The strength knowledge and inspiration that comes from recounting personal life and death experiences fosters healing Wounds heal from the inside out so does the heart and soul Writing these stories has been a therapeutic experience for our authors and for some an extremely difficult task It is our hope that by reading and sharing these real life personal experiences you too will be touched inspired and healed

a devastating fire during the 1863 Draft Riots several epidemics waves of racial prejudice and severe financial difficulties to care for orphaned neglected and delinquent children Eventually financial support would come from some of New York s finest families including the Jays Murrays Roosevelts Macys and Astors While the white female managers and their male advisers were dedicated to uplifting these black children the evangelical mainly Quaker founding managers also exhibited the extreme paternalistic views endemic at the time accepting the advice or support of the African American community only grudgingly It was frank criticism in 1913 from W E B Du Bois that highlighted the conflict between the orphanage and the community it served and it wasn t until 1939 that it hired the first black trustee More than 15 000 children were raised in the orphanage and throughout its history letters and visits have revealed that hundreds if not thousands of old boys and girls looked back with admiration and respect at the home that nurtured them throughout their formative years Weaving together African American history with a unique history of New York City this is not only a painstaking study of a previously unsung institution of black history but a unique window onto complex racial dynamics during a period when many failed to recognize equality among all citizens as a worthy purpose
