Virginia Woolf in Context Bryony Randall, Jane Goldman, 2012-12-17 As a paradigmatic modernist author Virginia Woolf is celebrated for the ways her fiction illuminates modern and contemporary life Woolf scholars have long debated how context whether historical cultural or theoretical is to be understood in relation to her work and how her work produces new insights into context Drawing on an international field of leading and emergent specialists this collection provides an authoritative resource for contemporary Woolf scholarship that explores the distinct and overlapping dimensions of her writings Rather than survey existing scholarship these essays extend Woolf studies in new directions by examining how the author is contextualised today The collection also highlights connections between Woolf and key cultural political and historical issues of the twentieth century such as avant gardism in music and art developments in journalism and the publishing industry political struggles over race gender and class and the bearings of colonialism empire and war Rhetoric and Ethic

Elisabeth Schüssler Fiorenza, In this major study leading feminist biblical critic Elisabeth Schussler Fiorenza focuses on Paul and his interpreters She questions the apolitical ethos of biblical scholarship and argues for an alternative rooted in a critical understanding of language as a form of power Modern biblical criticism she reasons derives much of its methodology and inspiration from an outdated notion of modern science It professes value neutrality and detachment from the world of politics and history Yet Schussler Fiorenza maintains this posture belies an objectivity that fails to engage the sociopolitical context of both the text and today's reader It also does not recognize the rhetorical character of biblical texts and readings If language is understood in the sense of ancient rhetorics as a form of power that constitutes reality then an ethics of interpretation is called for The task of biblical studies is to identify and assess the ethical resources and moral visions of biblical religions Only then Schussler Fiorenza contends will biblical studies be a significant partner in the global struggles seeking justice and well being for all

"Women and the Material Culture of Needlework and Textiles, 1750-1950" Maureen Daly Goggin, 2017-07-05

Rejecting traditional notions of what constitutes art this book brings together essays on a variety of fiber arts to recoup women's artistic practices by redefining what counts as art Although scholars over the last twenty years have turned their attention to fiber arts redefining the conditions practices and products as art there is still much work to be done to deconstruct the stubborn patriarchal art/craft binary With essays on a range of fiber art practices including embroidery knitting crocheting machine stitching rug making weaving and quilting this collection contributes to the ongoing scholarly redefinition of women's relationship to creative activity Focusing on women as producers of cultural products and creators of social value the contributors treat women as active subjects and problematize their material practices and artifacts in the complex world of textiles Each essay also examines the ways in which needlework both performs gender and in turn constructs gender Moreover in concentrating on and theorizing material practices of textiles these essays reorient the study of fiber arts towards a focus on process the making of the object including the conditions under which it was made by whom and for what purpose as a way to rethink the fiber arts as social praxis
