Understanding Franz Werfel Hans Wagener, 1993 Describes the life work of the Austrian poet novelist who heralded the German Expressionist movement in 1911 wrote some of Europe's most widely read novels in the 1930s enjoyed popular success in the 1940s with the film adaptations of his best selling novels **Dogmatics Among the Ruins** Ian R. Boyd, 2004 In the second decade of the twentieth century the cultural life of Germany was transformed by the emergence of Expressionism a series of vigorous youthful artistic movements which were to exert a lasting influence on modern culture In the same decade a young Swiss pastor called Karl Barth began a theological revolution laying the foundations for probably the most influential body of Christian theology in the modern age Some relationship between these two revolutions has long been assumed by scholars yet it has never been examined in detail The first part of this study addresses this omission offering the most detailed analysis to date of the important relationship between Barth and Expressionism The second part of the book takes a broader look at both Barth's theology and Expressionist culture considering the relevance of the Enlightenment as a context for both The key to this is a detailed discussion of Barth's own analysis of the Enlightenment in his neglected book *Protestant Theology in the Nineteenth Century* Barth's view is also compared with Alasdair MacIntyre's treatment of the Enlightenment in *After Virtue* The examination of these two contexts German Expressionism and the Enlightenment yields valuable insights into Barth's entire theological project **Franz Werfel: Bibliography of German Editions** John M. Spalek, 2009-10-16 This volume is the first comprehensive bibliography of all Werfel publications in German language and thus a complete history of the publication of Werfel's works All works are arranged alphabetically by title followed by all other editions grouped by publisher Each bibliographical entry contains the edition's designation all the information from the title sheet a description of the volume the location and detailed explanatory notes Exile John M. Spalek, Robert F. Bell, 2020-05-01 This work is a collection of twenty four fundamental essays on the many sided topic of German exile literature during and after Hitler's Third Reich Exile literature which emerged in the 1980s as a special field of

critical investigation within German Studies embraced the diverse works of writers who were scattered from Hollywood to Moscow but were related by the common bond of exile from Germany Leading American and European specialists in the field are contributors to the volume which discusses the work of Thomas Mann Bertolt Brecht Hermann Broch and Karl Wolfskehl among others
