Animal Reintroductions The Arabian Oryx In Oman

Jakob Bro-Jorgensen, David P. Mallon

Animal Reintroductions The Arabian Oryx In Oman:

Animal Reintroductions Mark R. Stanley Price, 1989-09-14 This book explores the reintroduction of the oryx back into the wild from zoo populations *Animal re-introductions : the arabian oryx in Oman* Mark R. Stanley Price, 1989 **Antelopes** David P. Mallon, Steven Charles Kingswood, 2001 Antelope herds numbering in the tens of thousands formerly occurred across the steppes and semideserts of Eurasia and India but these have nearly all been reduced to fractions of their earlier size antelope populations are now fragmented across the region and during recent decades several species have disappeared altogether Threats include hunting loss of habitat population fragmentation inadequate protected area coverage poorly developed administrative structures under resourcing of conservation programmes and lack of enforcement of existing legislation Rising human population growth and economic development constantly increases pressure on land and natural resources There is a consequent need for integrated rural development and community based conservation projects which have the full participation of local people at the planning and execution stages This publication Part 4 of the Global Antelope Survey covers 37 countries in the region and actions to conserve antelope populations are listed in each country report

Reintroduction of Fish and Wildlife Populations David S. Jachowski, Joshua J. Millspaugh, Paul L. Angermeier, Rob Slotow, 2016-09-20 Reintroduction of Fish and Wildlife Populations provides a practical step by step guide to successfully planning implementing and evaluating the reestablishment of animal populations in former habitats or their introduction in new environments In each chapter experts in reintroduction biology outline a comprehensive synthesis of core concepts issues techniques and perspectives This manual and reference supports scientists and managers from fisheries and wildlife professions as they plan reintroductions initiate releases of individuals and manage restored populations over time Covering a broad range of taxonomic groups ecosystems and global regions this edited volume is an essential guide for academics students and professionals in natural resource management *Zoo and Aquarium History* Vernon N. Kisling, Jr, 2022-07-11 Wild animals have been housed in zoos and aquariums for 5 000 years fascinating people living in virtually every society Today these institutions are at a new milestone in their history This second edition of Zoo and Aquarium History takes the reader on a journey through the transition of private collections to menageries to zoos then zoological gardens and more recently conservation centers and sanctuaries Under the direction of Vernon N Kisling an expert in zoo history an international team of authors has thoroughly updated the only comprehensive global history of animal collections menageries zoos and aquariums The resulting book documents the continuum of efforts in maintaining wild animal collections from ancient civilizations through today explaining how modern zoos have developed their mission statements around the core aims of conservation education research and recreation This new edition pulls together regional information including new chapters on zoological gardens of Canada Latin America China Israel the Middle East and New Zealand along with the cultural aspects of each region to provide a foundation upon which further research can be based It presents a chronological

listing of the world's zoos and aquariums and features many never before published photographs. Sidebars present supplementary information on pertinent personalities, events, and wildlife conservation issues. The original Appendix has been expanded to include over 1,200 zoos and aquariums, providing an invaluable resource. This is an extensive chronological introduction to the subject, highlighting the published and archival resources for those who want to know more.

Conservation and Mobile Indigenous Peoples Dawn Chatty, Marcus Colchester, 2002. Includes statistics. Zoo and Aquarium History Vernon N. Kisling, 2000-09-18. As one of the world's most popular cultural activities, wild animal collections have been attracting visitors for 5,000 years. Under the direction of Vernon N. Kisling, an expert in zoo history, an international team of authors has compiled the first comprehensive global history of animal collections, menageries, zoos, and aquariums.

Zoo and Aquar *Researching Biology and Evolution in the Gulf States* Jörg Matthias Determann, 2015-08-25. Officials and religious scholars in the Gulf states have repeatedly banned the teaching of the theory of evolution because of its association with atheism. But Jörg Matthias Determann argues here that despite official prohibition, research on biological evolution has flourished due in large part to the development of academic and professional networks. This book traces these networks through the history of various branches of biology, including botany, conservation, research, ornithology, and palaeontology. Typical of rentier societies, some of the scientific networks in this region consist of vertical patron-client relationships. For example, those in power who are interested in wildlife conservation have been known to offer patronage to biologists working on desert ecology. However, just as important are the horizontal links between scientists both within the Gulf region and beyond. Given the strengths and importance of these two forms of professional networks, Determann argues that we should look at the Arab world as an area interconnected with global science and therefore fully integrated into the scientific and technological advances being pioneered worldwide.

Reintroduction Biology John G. Ewen, Doug P. Armstrong, Kevin A. Parker, Philip J. Seddon, 2012-01-30. This book aims to further advance the field of reintroduction biology beyond the considerable progress made since the formation of the IUCN SSC Reintroduction Specialist Group. Using an issue-based framework that purposely avoids a structure based on case studies, the book's central theme is advocating a strategic approach to reintroduction where all actions are guided by explicit theoretical frameworks based on clearly defined objectives. Issues covered include husbandry and intensive management, monitoring, and genetic and health management. Although taxonomically neutral, there is a recognised dominance of bird and mammal studies that reflects the published research in this field. The structure and content are designed for use by people wanting to bridge the research management gap, such as conservation managers wanting to expand their thinking about reintroduction-related decisions or researchers who seek to make useful applied contributions to reintroduction.

Antelope Conservation Jakob Bro-Jørgensen, David P. Mallon, 2016-06-08. Antelopes constitute a fundamental part of ecosystems throughout Africa and Asia, where they act as habitat architects, dispersers of seeds, and prey for large carnivores. The fascination they hold in the human mind is evident.

from prehistoric rock paintings and ancient Egyptian art to today's wildlife documentaries and popularity in zoos. In recent years, however, the spectacular herds of the past have been decimated or extirpated over wide areas in the wilds, and urgent conservation action is needed to preserve this world heritage for generations to come. As the first book dedicated to antelope conservation, this volume sets out to diagnose the causes of the drastic declines in antelope biodiversity and, on this basis, identify the most effective points of action. In doing so, the book covers central issues in the current conservation debate, especially related to the management of overexploitation, habitat fragmentation, disease transmission, climate change, populations, genetics, and reintroductions. The contributions are authored by world-leading experts in the field, and the book is a useful resource to conservation scientists and practitioners, researchers, and students in related disciplines, as well as interested lay people.
