Moskowitz, 2010-10-21 This comprehensive discussion of the singer songwriter guitarist's life carves autobiographical details from the lyrics of his song catalog Jimi Hendrix was a rock n roll guitar god and remains an important rock icon still popular despite the four decades that have passed since his death in 1970 *The Words and Music of Jimi Hendrix* uses Hendrix's music including the posthumous album *Valleys of Neptune* released on March 9 2010 to shed light on the details of the singer songwriter's all too brief life Organized chronologically the book provides an in depth look at Hendrix's life carving autobiographical details from his lyrics At the same time it offers readers a better understanding of the superstar's music and the forces behind it The book focuses on the three albums released during Hendrix's life as well as the major posthumous works Priority is also given to touring and to the influence of other guitarists

The Words and Music of Van Morrison Erik Hage, 2009-03-20 Van Morrison is primal but sophisticated he's accessible but inscrutable he's a complex songwriter and a raw blues shouter he's a steady influence on the musical scene but wildly unpredictable as well and it's these complex and often conflicting qualities that make him such a compelling subject for the *Singer Songwriter* series Journalist Erik Hage here eschews a cold empirical study of structures and influence and seeks instead more natural and intuitive means of appreciating all that is unique eclectic and surprising about Van Morrison's impressive output In addition to covering almost all of Van Morrison's musical work and offering new readings of many iconic songs Hage also provides a biographical introduction and a complete discography that can help listeners find new perspective on Morrison's body of work Even in his darkest and most naked moments in *Astral Weeks* for instance Van Morrison's songs can still suggest something uplifting Sometimes these two poles are present simultaneously and at other times they each find distinct expression in a different musical moment Even on his first solo album *Blowin' Your Mind* which contained the iconic *Brown Eyed Girl* Van Morrison was wrestling with something thornier and deeper as evidenced by the wrenching *T B Sheets* a nine minute opus about the discomfort of visiting a lover in a small room as she lies in bed wracked with Tuberculosis Those two songs at artistic odds with each other and on the same album are representative of the oppositional forces that fuel much of his work Hage here provides a guide through all the layers of emotional meaning and musical resonance present in Morrison's work
