Body & Soul Loïc J. D. Wacquant, 2004 When French sociologist Loïc Wacquant signed up at a boxing gym in a black neighborhood of Chicago's South Side he had never contemplated getting close to a ring let alone climbing into it Yet for three years he immersed himself among local fighters amateur and professional He learned the Sweet science of bruising participating in all phases of the pugilist's strenuous preparation from shadow boxing drills to sparring to fighting in the Golden Gloves tournament In this experimental ethnography of incandescent intensity the scholar turned boxer supplies a model for a carnal sociology capable of capturing the taste and ache of action Body and Soul marries the analytic rigor of the sociologist with the stylistic grace of the novelist to offer a compelling portrait of a bodily craft and of life and labor in the black American ghetto but also a fascinating tale of personal transformation and social transcendence

Ethnographies Revisited Antony J. Puddephatt, William Shaffir, Steven W. Kleinknecht, 2009-12-16 Ethnographies Revisited provides first hand accounts of how leading qualitative researchers crafted key theoretical concepts found in their major book length ethnographies Great ethnographic research lies not in the rigid execution of prescribed methodological procedures but on the unrelenting cultivation of theoretical ideas These contributors focus squarely on this neglected topic providing reflexive accounts of how research decisions were made in light of emerging theoretical questions The continuous generation of creative concepts is

arguably the most important skill in developing powerful results in field research since the originality of the ideas produced is how the study is ultimately judged Yet this topic is often taken for granted treated rigidly and artificially or is entirely absent from existing qualitative research manuals In contrast this volume offers candid insights of how leading ethnographers generated their initial questions chose their research sites made theoretical and methodological adjustments and oriented their research to maximize the conceptual payoff leading to such successful research contributions This provides a fresh approach to the topic of qualitative research by linking practical decisions in the field to the dynamic features of theory in the making told through the first hand experiences of some of the best ethnographers in our field

Martial Arts and the Body Politic in Indonesia Lee Wilson, 2015-03-31 In *Martial Arts and the Body Politic in Indonesia* Lee Wilson offers an innovative study of nationalism and the Indonesian state through the ethnography of the martial art of Pencak Silat Wilson shows how technologies of physical and spiritual warfare such as Pencak Silat have long played a prominent role in Indonesian political society He demonstrates the importance of these technologies to the display and performance of power and highlights the limitations of theories of secular modernity for understanding political forms in contemporary Indonesia He offers a compelling argument for a revisionist account of models of power in Indonesia in which authority is understood as precarious and multiple and the body is politically charged because of its potential for transformation

Fashioning Fat Amanda M. Czerniawski, 2015-01-30 For two and a half years Amanda

Czerniawski was a sociologist turned plus size model Journeying into a world where as a size 10 she was not considered an average body type but rather for the fashion industry plus sized Czerniawski studied the standards of work and image production in the plus sized model industry Fashioning Fat takes us through a model s day to day activities first at open calls at modeling agencies and then through the fashion shows and photo shoots Czerniawski also interviewed 35 plus size models about their lives in the world of fashion bringing to life the strange contradictions of being an object of non idealized beauty Fashioning Fat shows us that the mission of many of these models is to challenge our standards of beauty that privilege the thin body they show us that fat can be sexy Many plus size models do often succeed in overcoming years of self loathing and shame over their bodies yet as Czerniawski shows these women are not the ones in charge of beauty s construction or dissemination At the corporate level the fashion industry perpetuates their objectification Plus size models must conform to an image created by fashion s tastemakers as their bodies must fit within narrowly defined parameters of size and shape an experience not too different from that of straight sized models Ultimately plus size models find that they are still molding their bodies to fit an image instead of molding an image of beauty to fit their bodies A much needed behind the scenes look at this growing industry Fashioning Fat is a fascinating unique and important contribution to our understanding of beauty
