, Built to Last Erik Berglöff, 2003 Annotation The European Constitutional Convention offers a historical opportunity to rethink and to improve the governance and organization of the European Union At stake is Europe's political architecture the form that government takes and the allocation of responsibilities between the member states and supranational bodies Many reform proposals have already been offered to the Convention This Report provides a method for evaluating those options developing an analytical framework derived from recent developments in the theory of positive political economy On this basis the authors conclude that a presidential system of governance is likely to be best adapted to Europe and specifically to the need to expand the competency of the EU in the areas of internal and external security Europe's Second and Third Pillars In a full blown presidential system the Commission would have well defined executive powers specified by the Council and a president elected by the citizens of Europe The European executive would be subject to checks and balances by both the Council and the European Parliament But political realism excludes adopting such a solution in the short run The authors therefore propose an evolutionary strategy the election of the Commission president by a college of country representatives appointed in the short run by national parliaments leaving the option open to individual countries to allocate their votes for the presidency via universal suffrage This solution would preserve the option of moving to a fully fledged presidential model sometime in the future while providing enhanced democratic legitimacy from the start In general the Constitution should be long on principles and general rules and short on details so as to allow Europe's governance to evolve within an unchanged Constitution Book jacket *Healing from the Inside Out* Adele Puhn, 1999-04-27 No doctor can ever understand your body as well as you And from understanding comes the self awareness and responsible self care that produces long lasting good health To help you take charge of your body's well being clinical nutritionist Adele Puhn author of the New York Times bestseller *The 5 Day Miracle Diet* has written this comprehensive guide to the sources of and remedies for many perhaps all of your health problems An abused digestive tract allows toxins and bacteria to leak through its weakened walls into the bloodstream and wreak havoc throughout the body An overtaxed liver unable to perform its vital filtering and metabolic functions leaves the body toxic and vulnerable *Healing from the Inside Out* tells you how to heal these conditions and repair the damage they have caused in all parts of the body featuring more than fifty fully detailed and carefully structured preventive and rescue regimens wholesome diets appropriate potencies of vitamins minerals amino acids herbal remedies and more all designed to heal and invigorate the body Gastro intestinal tract Crohn's disease colitis ulcers gallbladder disease hiatal hernia irritable bowel syndrome Heart and circulation angina arrhythmia high cholesterol hypertension Muscles joints and skeleton chronic back pain fibromyalgia osteoporosis osteoarthritis rheumatoid arthritis Skin and hair dandruff hair loss psoriasis Endocrine system hypoglycemia hyperthyroidism kidney stones diabetes Emotions depression chronic fatigue syndrome stress hyperactivity Breathing asthma chronic bronchitis sinusitis And much more including case histories
