Boethius's In Ciceronis Topica Anicius Manlius Severinus Boethius, Boethius, 2004 In Ciceronis Topica and De topicis differentiis are Boethius's two treatises on Topics loci Together these two works present Boethius's theory of the art of discovering arguments a theory that was highly influential in the history of medieval logic Eleonore Stump here presents the first English language translation of In Ciceronis Topica Boethius's extended commentary on Cicero's Topica To supplement her translation Professor Stump has provided an introduction that supplies essential information about In Ciceronis Topica Boethius's life and the tradition of dialectic her detailed notes explore the many philosophical problems in Boethius's text A significant contribution to the history of Western intellectual life in its own right Boethius's In Ciceronis Topica makes an excellent companion to Professor Stump's earlier work Boethius's De topicis differentiis also available from Cornell

Topica. Add: Cicero: Topica. Boethius: In Ciceronis Topica commentum, 1484 **Boethius's "De topicis differentiis"** Boethius, 2018-08-06 In Ciceronis Topica and De topicis differentiis are Boethius's two treatises on Topics loci Together these two works present Boethius's theory of the art of discovering arguments a theory that was highly influential in the history of medieval logic Boethius's In Ciceronis Topica. Transl. by Eleonore Stump ... 1988. [Review]. E. J. Ashworth, A Historical Study of Anselm's Proslogion Toivo J. Holopainen, 2020-08-03 In A Historical Study of Anselm's Proslogion Toivo J. Holopainen offers a new overall interpretation of Anselm's Proslogion by providing a historical explanation for the distinctive combination of argument and devotion that this treatise exhibits Part 1 clarifies Anselm's outlook on the central arguments in the treatise by offering a careful analysis of the single argument the discovery of which Anselm announces in the preface Part 2 reassesses the conflicting views about faith and reason in the immediate background of the Proslogion the Eucharistic controversy the publication of the Monologion Part 3 examines the Proslogion from a rhetorical perspective and argues that applying the single argument in a devotional setting constitutes a subtle attempt to affect the audience's ideas about method in theology Boethius and Aquinas Ralph M. McInerny, Ralph McInerny, 2012-09-15 In this study of the relationship between Boethius and Thomas Aquinas Ralph McInerny dispels the notion that Aquinas misunderstood the early philosopher and argues instead that he learned from Boethius assimilated his ideas and proved to be a reliable interpreter of his thought From a Topical Point of View Peter Boschung, 2006-12-01 This study of Anselm of Canterbury's enigmatic work De grammatico provides a perspective both on Anselm's thought and the history of medieval dialectic immediately prior to the renaissance of dialectic in the 12th century The first part of the book examines Anselm's notion of dialectic and illustrates the role of De grammatico in the context of teaching dialectic The second part of the book remarks the novelty of Anselm's way of treating fallacies and presents a full study of the technique for treating fallacies its theoretical basis and its application in the context of dialectic The third part explores Anselm's theory of signification as it is

presented in De grammatico and emphasizes its rich metaphysical underpinnings Each part begins with a presentation of an assessment of the sources as they were available to Anselm builds the interpretation of Anselm s ideas on this basis and reflects on the relation of these ideas to 12th Century logical thought Encyclopedia of Medieval Philosophy Henrik Lagerlund,2010-12-07 This is the first reference ever devoted to medieval philosophy It covers all areas of the field from 500 1500 including philosophers philosophies key terms and concepts It also provides analyses of particular theories plus cultural and social contexts Boethius as a Paradigm of Late Ancient Thought Thomas Böhm,Thomas Jürgasch,Andreas Kirchner,2014-10-10 Boethius is largely underrated in the history of Western thought Scholarship often regarded him and his era Late Antiquity as mere intermediaries between Antiquity and the Middle Ages This volume shows that Boethius and his time can be appreciated in their own right
