A Regiment Of The Sea And Other Writings On Navigation:

A Regiment for the Sea, and other Writings on Navigation, by William Bourne of Gravesend, a Gunner, c.1535-1582
E.G.R. Taylor, 2017-05-15 William Bourne of Gravesend by trade a gunner was a successful writer of a new type of textbook Neither a scholar nor of gentle birth both of which were regarded as the prerequisites of authorship in the 16th century when the scientific books were expected to appear only in universities and to be read only by those fluent in Latin Bourne nevertheless produced a whole series of technical manuals written in English for the artisans and craftsmen of his own class A Regiment for the Sea which forms the core of the volume is perhaps the earliest technical manual written by an Englishman It is not simply his rules for navigation for Bourne wrote much as he spoke so that out of this instruction book for sailors a clear picture of the man himself emerges serious reliable patriotic and with this inborn impulse to pass on his knowledge to others The first edition of 1574 is printed here in full with the additional material which was added to the 1580 edition Professor Taylor has also included two Almanackes She has written an introductory section to each text and in her general Introduction she fills in the details of Bourne s life and discusses his various writings There is a full bibliography This is a new print on demand hardback edition of the volume first published in 1963 Owing to technical constraints it has not been possible to reproduce Fig 2 From London to the Medway details of Symonson s map of Kent 1596 which appeared in the first edition of the work

The Writing of Natural Disaster in Europe, 1500-1826 Sandhya Patel, Sophie Chiari, 2022-12-12 This book explores reactions to and representations of natural disasters in early modern Europe The contributors illustrate how the cultural production of the period in manuals treatises sermons travelogues and fiction grappled with environmental catastrophe Crucially they interrogate how people in the early modern era rationalized and mediated the threat of events like plagues great frosts storms floods and earthquakes A vital contribution to environmental history this book highlights the parallels between early modern responses to natural disaster and climate anxiety in our own era

Fictions of the Sea Bernhard Klein, 2017-03-02 This timely collection brings together twelve original essays on the cultural meaning of the sea in British literature and history from early modern times to the present Interdisciplinary in conception it charts metaphorical and material links between the idea of the sea in the cultural imagination and its significance for the social and political history of Britain offering a fresh analysis of the impact of the ocean on the formation of British cultural identities Among the cultural and literary artifacts considered are early modern legal treatises on marine boundaries Renaissance and Romantic poetry 19th and 20th century novels popular sea songs recent Hollywood films as well as a diverse range of historical and critical writings Writers discussed include Shakespeare Milton Coleridge Scott Conrad du

Maurier Unsworth O Brian and others All these cultural and literary fictions of the sea are set in relation to wider issues relevant to maritime history and the historical experience of seafaring problems of navigation and orientation piracy empire colonialism slavery multi ethnic shipboard communities masculinity gender relations By combining the interests of three related but distinct areas of study the analysis of sea fiction critical maritime history and cultural studies in a focus upon the historical meaning of the sea in relation to its textual and cultural representation Fictions of the Sea offers an original contribution to the practice of existing disciplines

Sir Philip Sidney and the Circulation of Manuscripts, 1558-1640

H. R. Woudhuysen, 1996-05-23 This is the first modern study of the production and circulation of manuscripts during the English Renaissance H R Woudhuysen examines the relationship between manuscript and print looks at people who lived by their pens and surveys authorial and scribal manuscripts paying particular attention to the copying of verse plays and scholarly works by hand It investigates the professional production of manuscripts for sale by scribes such as Ralph Crane and Richard Robinson The second part of the book examines Sir Philip Sydney s works in the context of Woudhuysen s research discussing all Sidney s important manuscripts and seeking to assess his part in the circulation of his works and his role in the promotion of a scribal culture A detailed examination of the manuscripts and early prints of his poems his Arcadias and of Astrophil and Stella shed new light on their composition evolution and dissemination as well as on Sidney s friends and admirers

Scientists and the Sea, 1650-1900 Margaret Deacon, 2018-04-17 Scientists and the Sea is a history of how the scientific study of the sea has developed over a period of nearly 2500 years Beginning with the speculations of Greek philosophers it carries the story forward showing how curiosity about the ocean appeared in many different forms and locations before in the late 19th century the first deep sea researches heralded the foundation of the science known today as oceanography Originally published in 1971 this book has never been superseded as the most comprehensive and wide ranging treatment of the emergence of marine science within the western scientific tradition After three introductory chapters dealing with knowledge up to the Renaissance the main part of the work shows how pioneers of scientific observation at sea during the 17th and 18th centuries made notable discoveries but that it was not until the middle of the 19th century when aided by the advance of technology scientists were able to undertake the first explorations of the ocean depths This second edition contains a new introduction and bibliography

Sea Devils John Swinfield, 2014-02-03

Sea Devils is a compelling account of pioneer submariners and their astonishing underwater contraptions Some made perilous voyages Others sank like stones Craft were propelled by muscle power or had steam engines with chimneys Some had wheels to trundle along the seabed Others were used as underwater aircraft carriers Here John Swinfield traces the history of early submarines and the personalities who built and sailed them From a plethora of madcap inventors emerged a bizarre machine that navies of the world reluctantly acquired but viewed with distaste It matured into a weapon that would usurp the mighty battleship which had for centuries enjoyed an unchallenged command of the oceans In its long and perilous history the

submarine became subject to fierce business military and political shenanigans It won eventual acceptance amidst the chaos and carnage of the First World War in which pathfinder submariners achieved an extraordinarily high tally of five Victoria Crosses Britain's highest military decoration Sea Devils brims with daring characters and their unflinching determination to make hazardous underwater voyages an immensely readable entertaining and authoritative chronicle of low cunning high politics wondrous heroism and appalling tragedy
