A Political History Of The Achaemenid Empire:

A Political History of the Achaemenid Empire M. A. Dandamaev, 1989 *A Political History of the World* Jonathan Holslag, 2018-10-25 A three thousand year history of the world that examines the causes of war and the search for peace In three thousand years of history China has spent at least eleven centuries at war The Roman Empire was in conflict during at least 50 per cent of its lifetime Since 1776 the United States has spent over one hundred years at war The dream of peace has been universal in the history of humanity So why have we so rarely been able to achieve it In *A Political History of the World* Jonathan Holslag has produced a sweeping history of the world from the Iron Age to the present that investigates the causes of conflict between empires nations and peoples and the attempts at diplomacy and cosmopolitanism A birds eye view of three thousand years of history the book illuminates the forces shaping world politics from Ancient Egypt to the Han Dynasty the Pax Romana to the rise of Islam the Peace of Westphalia to the creation of the United Nations This truly global approach enables Holslag to search for patterns across different eras and regions and explore larger questions about war diplomacy and power Has trade fostered peace What are the limits of diplomacy How does environmental change affect stability Is war a universal sin of power At a time when the threat of nuclear war looms again this is a much needed history intended for students of international politics and anyone looking for a background on current events **Religion, Culture, and Politics in Pre-Islamic Iran** Bruce Lincoln, 2021-06-22 In *Religion Culture and Politics in Pre Islamic Iran* Bruce Lincoln offers a vast overview on different aspects of the Indo Iranian Zoroastrian and Pre Islamic mythologies religions and cultural issues The book is organized in four sections according to the body of evidence they engage most directly Avestan Old Persian Pahlavi and Iranian materials in comparison with other data including studies of myths especially those with cosmogonic implications ritual practices cosmological constructions of space and time points of intersection between religion ethics law and politics ideological aspects of scientific and medical theorizing social organization and gender relations and other diverse topics *The Oxford World History of Empire* Peter Fibiger Bang, C. A. Bayly, Walter Scheidel, 2020-12-02 This is the first world history of empire reaching from the third millennium BCE to the present By combining synthetic surveys thematic comparative essays and numerous chapters on specific empires its two volumes provide unparalleled coverage of imperialism throughout history and across continents from Asia to Europe and from Africa to the Americas Only a few decades ago empire was believed to be a thing of the past now it is clear that it has been and remains one of the most enduring forms of political organization and power We cannot understand the dynamics and resilience of empire without moving decisively beyond the study of individual cases or particular periods such as the relatively short age of European colonialism The history of empire as these volumes amply demonstrate needs to be drawn on the much broader canvas of global history Volume Two *The History of Empires* tracks the protean history of political domination from the very beginnings of state formation in the Bronze Age up to the present Case studies deal with the full range of the historical experience of

empire from the realms of the Achaemenids and Asoka to the empires of Mali and Songhay and from ancient Rome and China to the Mughals American settler colonialism and the Soviet Union Forty five chapters detailing the history of individual empires are tied together by a set of global synthesizing surveys that structure the world history of empire into eight chronological phases

Empires of Ancient Eurasia Craig Benjamin, 2018-05-03 The Silk Roads are the symbol of the interconnectedness of ancient Eurasian civilizations Using challenging land and maritime routes merchants and adventurers diplomats and missionaries sailors and soldiers and camels horses and ships carried their commodities ideas languages and pathogens enormous distances across Eurasia The result was an underlying unity that traveled the length of the routes and which is preserved to this day expressed in common technologies artistic styles cultures and religions and even disease and immunity patterns In words and images Craig Benjamin explores the processes that allowed for the comingling of so many goods ideas and diseases around a geographical hub deep in central Eurasia He argues that the first Silk Roads era was the catalyst for an extraordinary increase in the complexity of human relationships and collective learning a complexity that helped drive our species inexorably along a path towards modernity

Brill's Companion to War in the Ancient Iranian Empires , 2024-10-21 Brill's Companion to War in the Ancient Iranian Empires examines military structures and methods from the Elamite period through the Achaemenid Seleucid Arsacid and Sasanian empires War played a critical role in Iranian state formation and dynastic transitions imperial ideologies and administration and relations with neighbouring states and peoples from Central Asia to the Mediterranean Twenty chapters by leading experts offer fresh approaches to the study of ancient Iranian armies strategy diplomacy and battlefield methods and contextualise famous conflicts with Greek and Roman opponents

Text, Theology, and Trowel Lidia D. Matassa, Jason M. Silverman, 2011-07-01 Text Theology and Trowel consists of ten essays on the understanding and reception of the Hebrew Bible in Judaism and Christianity Textual exegesis historical contexts and modern reception of the Hebrew text are placed side by side to encourage interdisciplinary study Two theologically minded essays are included to help overcome the biblical studies theology dichotomy By placing such divergent approaches together this volume will help expand ways of thinking about the Bible and its cognate fields

The Politics of Youth in Greek Tragedy Matthew Shipton, 2018-02-08 This bold new set of interpretations of tragedy offers innovative analyses of the dynamic between politics and youth in the ancient world By exploring how tragedy responded to the fluctuating attitudes to young people at a highly turbulent time in the history of Athens Shipton sheds new light on ancient attitudes to youth Focusing on famous plays such as Sophocles Antigone and Euripides Bacchae alongside lesser known tragedies such as Euripides Heraclidae and Orestes Shipton uncovers compelling evidence to show that the complex and often paradoxical views we hold about youth today can also be found in the ancient society of classical Athens Shipton argues that the prominence of young people in tragedy throughout the fifth century reflects the persistent uncertainty as to what their role in society should be As the success of Athens rose and then fell young characters were repeatedly used by tragic

playwrights as a way to explore political tensions and social upheaval in the city Throughout his text Shipton reflects on how negative conceptualisations of youth often expressed via the socially constructed gang are formed as a way in which paradoxical views on youth can be contained **Athens and Persia in the Fifth Century BC** Margaret C.

Miller,2004-08-19 First comprehensive collection of evidence of the relations between Athens and Persia in fifth century BC

Persepolis and Jerusalem Jason M. Silverman,2012-10-10 Persepolis and Jerusalem reconsiders Iranian influence upon Jewish apocalyptic and offers grounds upon which such study may proceed After describing the history of scholarship on the question of Iranian influence and on Jewish apocalyptic Jason M Silverman reformulates the methodology for understanding apocalyptic and influence Two chapters set the discussion firmly in the Achaemenid Empire describing the sources for Iranian religion the issues involved in attempting a historical reconstruction the methodology by which one can date the various texts and ideas and the potential loci for Iranian Judaeae interaction The historical context is expanded through media contextualization particularly Oral Theory and critiques the standard text centric method of current Biblical Scholarship With this background pericopes from Ezekiel Daniel and 1 Enoch are analyzed for Iranian influence The study then brings together the contexts and analyses to argue for an Apocalyptic Hermeneutic which relates the phenomena of apocalypticism apocalypse and millenarianism seeing the hermeneutic as a dialectical thread holding them all together as well as apart and posits this as the best place to understand Iranian influences
