

ENGLISH LANGUAGE SKILLS

How to Improve English Language Skills

What Are the Basic English Language Skills?

Listening

As we hear words being pronounced and used in sentences, we absorb information that we store for future use.

Speaking

When speaking, you can rely on the words and concepts you are most comfortable with, mastering these as you build on your language abilities.

Reading

You are consuming the language and storing knowledge for you to later use as building blocks for writing and speaking.

Writing

Writing is an opportunity to use the words you've learned and produce the English language on your own.

How to Improve English Language Skills

➡ Practice

When learning anything, especially a language, it is important to practice the skills learned to strengthen them and not lose them.

➡ Have conversations in English

Using English interactively is key to improving your speaking skills so, when possible, engage in using it orally. Having access to a native English speaker you can practice with is a plus.

Tips to Quickly Improve English Skills

➡ Watch movies in English or utilize English subtitles

Doing this is a fun and easy way to pick up on popular English phrases, grammar, and pronunciation.

➡ Build your vocabulary

As you learn, try to translate words from your own language to English. Translate common words and phrases and practice using them often to acquire them.

This book investigates inherent structural differences in the Chinese and English writing systems which predispose learners from childhood to develop specific literacy learning strategies which can impair later efforts at learning foreign language literacy if the foreign language script varies significantly from the native language script It compares educational practices and philosophies in Chinese and English speaking classrooms and examines the psychological underpinnings of these literacy learning strategies This book presents psychometric testing of adult reading strategy defaults and examines case study data revealing that Chinese students are susceptible to misapplying Chinese character level processing strategies to English word identification tasks which decreases reading efficiency and ultimately can lead to learning failure Finally a new educational framework is proposed for teaching beginning language specific word identification and literacy learning skills to learners whose first language script varies significantly from that of the target language [Occupational Outlook Quarterly](#) ,1998 [OOQ, Occupational Outlook Quarterly](#) ,1998 [Educating](#)
