Keeton, 1995-12-31 This handy compilation of the expressions trial lawyers use most is a guide for law students to the language of the courtroom Lawyer Evaluation in Chinese Courtroom Liping Zhang, 2024-04-22 This book focuses on the speech style of lawyer talk in contemporary Chinese courtrooms The topic is intriguing to readers who may wonder how lawyers compete with their opposing counterparts in an adversarial trial system in China The legal tradition in Confucianism which advocates harmony in interpersonal relationships has historically guided the practice of law in China The book analyses how lawyers manage to compete in this system Applying the social semiotic view of language in the Hallidayian sense specifically systemic functional linguistics and its appraisal theory this study interprets the subjectivity of legal language by lawyers The speech style in legal argument presentation is described as rational The exploration of the rational speech style of lawyers is a theoretical and discursive topic It draws upon Habermasian philosophy of intersubjectivity in legal argumentation and considers the cultural and legal contexts of China as contextual constraints The keyconstruct of lawyer evaluation is fully captured in this discussion As a linguistic phenomenon and unit of analysis discourse can be examined both within local clauses and in larger stretches of talk beyond clauses Additionally it serves as an effective means for constructing a rational speech style for lawyers Most importantly discourse is a discursive act that negotiates legal arguments in the dynamic speech exchanges of a court trial which is embedded in a wider social and cultural context The book showcases instances of lawyer talk in well documented trials in China and offers a good opportunity for readers to gain a general understanding of courtroom discourse in the Chinese context It introduces readers with special interests in legal language and the law to the solidarity dimension of legal language and arguments an alternative to the confrontational or hostile lawyer talk in trials in countries with a common law system The analysis presented is refined and the language used is clear concise and objective **Dictionary of Legal Terms: Definitions and Explanations for Non-Lawyers** Steven H. Dent Gitchel, Molly Townes O'Brien, 2006 The Army Lawyer , 2001 **Finding the Words** James O. Freedman, 2021-04-13 James Freedman the fifteenth president

of Dartmouth College began life in a struggling middle class Jewish family in a provincial industrial New Hampshire town. By the time of his death from cancer in March 2006 he was one of the most celebrated educational leaders of his generation perhaps of the twentieth century. *Finding the Words* is Freedman's account of the first twenty seven years of this astonishing trajectory in a life made difficult by depression but sustained throughout by a love of books and learning, a life that would transform the culture of American higher education. His mother's fierce and bruising ambition instilled in him an overwhelming drive to leave his mark upon the world. His father, a revered high school English teacher who was timid outside the classroom, introduced him to the rich world of literature and also passed on to him his doubts and insecurities. Freedman retraces his intellectual formation as a student, educator, scholar, and leader from his early obsession with book collecting through his undergraduate years at Harvard and his professional training at Yale Law School. This same passion for language and ideas defined Freedman's leadership at Dartmouth where he deftly countered lingering anti-Semitism, fought entrenched interests to open the way for women and minorities, reformed and revitalized the curriculum, and boldly reconceived the school's campus. This moving and inspiring book vividly depicts the formative years of a man nourished by lifelong learning whose rise from humble beginnings to heights of achievement will serve as a model for generations to come.
