

Basic Self-Knowledge by Harry Benjamin

Harry Benjamin entered the Work after he realized that the Western approach sought to change people from the outside, whereas he perceived that real change can only come from within. Introduction

This is an introduction to Esoteric Psychology based on the Gurdjieff System of human development with some reference to the writings of J. Krishnamurti. To live in a truly creative and dynamic way, that is, according to the basic laws of one's being, most of us would need to feel, and think in a completely new way.

Real satisfaction and happiness are to be found by looking beyond the ordinary self to "something" not capable of being contacted by the senses, and by living according to our fundamental Self rather than our ordinary self, i.e. our divine self, which is rooted in the same Creative Essence that created the external Universe.

Imaginary "I"

Our ordinary, illusionary or imaginary self is a collection of "I's", and when ruled by it our mood changes according to which "I" has been stimulated (we sometimes recognize this in others, but rarely in ourselves). In contrast, our fundamental Self is consistent and is ruled from within by consciousness.

Self-Observation

The first step in the work of esoteric psychology is to become aware of the
