

Basketball

What is the most popular sport in the world? Most people would probably say soccer, because of the many millions who play it and the even larger number who watch it on television. There are some, however, who say the correct answer is basketball – not because of its TV audience, which is certainly smaller than that for soccer, but because the number of people who regularly play the game might be higher (at least 300 million, according to most estimates).

In China, for example, which has a population of 1.3 billion, more people play basketball than soccer, and it is becoming more popular all the time. Basketball has existed for less time than some of the world's other major sports. It was invented in the early 1890s by a Canadian, James Naismith, working at a college in the state of Massachusetts in the United States. Wanting to create a game that could be played indoors during the long winters but would also be active enough to keep people in shape, he had the idea of two teams of players trying to throw a ball into a basket that was above their heads.

Early basketball looked different from the game today: for example, the basket didn't have a hole in the bottom, so every time a player threw the ball in, someone had to go up to get it out again! Another difference is dribbling, which is when a player in modern basketball bounces the ball off the floor while moving across the court: it didn't exist in early basketball because the balls didn't bounce well enough. One thing that hasn't changed, though, is the height of the baskets: James Naismith put the first one 10 feet (3.05 meters) off the floor, and that's where they've stayed.

The biggest international TV audiences in modern basketball are for games in the National Basketball Association (NBA) in North America, a league of 30 teams (29 from the United States and one from Canada), including famous names such as the Chicago Bulls, Boston Celtics, and Los Angeles Lakers. Most of the players in the NBA are American, but there are also some foreign stars such as Yao Ming from China and Dirk Nowitzki from Germany.

The United States has usually been the strongest team in international basketball competitions. In the last Olympic Games, in Beijing in 2008, the US men's and women's teams both won gold medals – the men beat Spain in the final, and the women beat Australia.
