Performance-Based Family Therapy H. Charles Fishman, 2022-03-07 In this groundbreaking book Charles Fishman uniquely incorporates and develops results based accountability RBA into the framework of structural family therapy Collaborating with the founder of RBA Mark Friedman this approach aims to transform the field of family therapy by allowing clinicians to track performance effectively and efficiently with their clients The book begins by reviewing the historical foundations of family therapy and evaluates why challenges in the field alternative methods and the reliance on evidence based medicine EBM have meant that family therapy may not have flourished to the extent that many of us expected It then explores how RBA can be integrated into intensive structural therapy IST with chapters examining how RBA can be applied in context such as in treating eating disorders supervision and how it can be used to transform the professional's clinical contexts Relevant and practical the book also introduces the community resource specialist to help in the treatment of socially disadvantaged families as well as practical appendices and tracking tools to empower clinicians to track their data and choose treatment models that obtain best outcomes This new approach offers transparent and measurable outcomes for both clinicians and training family therapists lending a helping hand in making family therapy the gold standard in psychotherapy It is essential reading for undergraduate and graduate students of family therapy course leaders and all clinicians in professional contexts such as social workers psychotherapists and marriage couple and family therapists

Financial Management in the Department for Children, Schools and Families Great Britain. National Audit Office, 2009 The Department for Children Schools and Families has made progress in improving its financial management with strong commitment at senior management and board level The Department's ability to reach a high standard of financial management depends partly on successful working with local authorities other partner organisations and the schools themselves It does however face specific challenges including the need for better strategic management of its large capital programme and to encourage better financial management in schools The Department has built up a large capital underspend which increased from 1.9 billion at 31 March 2008 to around 2.4 billion at the end of March 2009 Its capital expenditure programme will need to be carefully managed given the history of underspending and the challenge of bringing forward 924 million of expenditure from 2010/11 to 2009/10 as part of the Government's fiscal stimulus At March 2008 schools in England had a net cumulative surplus of 1.9 billion Only 1 in 5 local authorities reduced their total net school surplus in 2007/08 Local authorities are accountable for school spending and the Department should encourage them to redistribute excessive uncommitted surpluses in line with local needs The Department was in 2007 one of three departments which had not implemented in year accruals accounting systems which would help to improve the accuracy of financial forecasting and reporting The planned introduction of a shared services arrangement for finance with procurement and personnel support should also help improve financial management and lead to efficiencies
