Stealing the Show Miriam J. Petty, 2016-03-08 Stealing the Show is a study of African American actors in Hollywood during the 1930s a decade that saw the consolidation of stardom as a potent cultural and industrial force Petty focuses on five performers whose Hollywood film careers flourished during this period Louise Beavers Fredi Washington Lincoln Steppin Fetchit Perry Bill Bojangles Robinson and Hattie McDaniel to reveal the problematic stardom and the enduring interdependent patterns of performance and spectatorship for performers and audiences of color She maps how these actors though regularly cast in stereotyped and marginalized roles employed various strategies of cinematic and extracinematic

performance to negotiate their complex positions in Hollywood and to ultimately steal the show Drawing on a variety of source materials Petty explores these stars reception among Black audiences and theorizes African American viewership in the early twentieth century Her book is an important and welcome contribution to the literature on the movies Studies in the History of the Renaissance Walter Pater, 2010-02-11 art comes to you professing frankly to give nothing but the highest quality to your moments as they pass and simply for those moments sake In Studies in the History of the Renaissance 1873 a diffident Oxford don produced an audacious and incalculably influential defence of aestheticism Through his highly idiosyncratic readings of some of the finest paintings sculptures and poems of the French and Italian Renaissance Pater redefined the practice of criticism as an impressionistic almost erotic exploration of the critic's aesthetic responses At the same time reclaiming the Hellenism that he saw as the most characteristic aspect of the Renaissance he implicitly celebrated homoerotic friendship Pater's infamous Conclusion which forever linked him with the decadent movement scandalized many with its insistence on making pleasure the sole motive of life even as it charmed fellow aesthetes such as Oscar Wilde This edition of Studies reproduces the text of the first edition recapturing its initial impact and the Introduction celebrates its doomed attempt to stand out against the processes of industrialization ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more
