Solidarity Economics

Chris Benner, Manuel Pastor, 2021-09-03 Traditional economics is built on the assumption of self interested individuals seeking to maximize personal gain but that is far from the whole story Sharing caring and a desire to uphold the collective good are also powerful motives In a world wracked by inequality social divisions and ecological destruction can we build an alternative economics based on cooperation In this book Chris Benner and Manuel Pastor invite us to imagine a new sort of solidarity economics an approach grounded in our instincts for connection and community and in so doing actually build a more robust and sustainable economy They argue that our current economy is already deeply dependent on mutuality but that the inequality and fragmentation created by the status quo undermine this mutuality and with it our economic well being They outline the theoretical framing policy agenda and social movements that we need to revive solidarity and apply it to whole societies Solidarity Economics is an essential read for anyone who longs for

a fairer economy that can generate prosperity and preserve the planet

Packaging Materials and Processing for Food, Pharmaceuticals and Cosmetics Frederic Debeaufort, Kata Galic, Mia Kurek, Nasreddine Benbettaieb, Mario Scetar, 2021-03-31 This book provides valuable information on a range of food packaging topics It serves as a source for students professionals and packaging engineers who need to know more about the characteristics applications and consequences of different packaging materials in food packaging interactions This book is divided into 13 chapters and focuses on the agro food cosmetics and pharmaceutical sectors The first four chapters cover traditional packaging materials wood paper and cardboard glass and metal The next two deal respectively with plastics and laminates Biobased materials are then covered followed by a presentation of active and smart packaging Some chapters are also dedicated to providing information on caps and closures as well as auxiliary materials Different food packaging methods are presented followed by an investigation into the design and labelling of packaging The book ends with a chapter presenting information on how the choice of packaging material is dependent on the characteristics of the food products to be packaged OECD Environmental Performance Reviews: Denmark 2019 OECD, 2019-11-14 This is the third Environmental Performance Review of Denmark It evaluates progress towards sustainable development and green growth with special features on waste materials management and the circular economy and chemicals management
