Aurel Stein On The Silk Road H:

Aurel Stein on the Silk Road Susan Whitfield, 2004 This work presents an illustrated account of the adventures of the great Silk Road explorer and archaeologist Sir Aurel Stein whose expeditions included the discovery of an amazing hoard of Buddhist paintings hidden since the 11th century inside a secret cave at Dunhuang **The Oxford Companion to**

Archaeology Neil Asher Silberman, 2012-11 The second edition of The Oxford Companion to Archaeology is a thoroughly up to date resource with new entries exploring the many advances in the field since the first edition published in 1996 In 700 entries the second edition provides thorough coverage to historical archaeology the development of archaeology as a field of study and the way the discipline works to explain the past In addition to these theoretical entries other entries describe the major excavations discoveries and innovations from the discovery of the cave paintings at Lascaux to the deciphering of Egyptian hieroglyphics and the use of luminescence dating Recent developments in methods and analytical techniques which have revolutionized the ways excavations are performed are also covered as well as new areas within archaeology such as cultural tourism and major new sites which have expanded our understanding of prehistory and human developments through time In addition to significant expansion first edition entries have been thoroughly revised and updated to reflect the progress that has been made in the last decade and a half After Alexander Joe Cribb, Georgina Herrmann, 2007-07-26 This

The Silk Road Valerie Hansen, 2017 The Silk Road We have a hazy mental image a lone traveler carrying silk on a camel moves along a desert Where exactly is he going and what goods is he carrying This book offers concrete answers based on newly discovered documents preserved in the sands of the Taklamakan Desert It is amazing what has been dug up and how the new materials both documents and artifacts radically challenge our understanding of the Silk Road Historians have only recently begun to piece together and make sense of these materials which give a far clearer picture of actual Silk Road Placing these documentary finds at the heart of the narrative this book also tells the story of the different explorers who found these documents and it teases out the implications of these documents for our understanding of the Silk Road We learn for example that the Silk Road was not really a road and that no one used the term Silk Road in the past The book focuses on the seven most important Silk Road sites that have produced documents and objects from the Silk Road Six Niya Kucha Turfan Dunhuang Khotan and Xi'an are located in northwest China the seventh Samarkand is in modern Uzbekistan This college edition includes a selection of excerpted primary sources in each chapter The range is enormous memoirs of medieval Chinese monks and modern explorers letters written by women descriptions of towns language learning materials for traveling monks and contracts among others Instructors can select the documents they find most interesting to discuss in class students can use these materials write papers Many of these are difficult to find and the author has checked all the translations to enhance their readability The college edition also includes a new final chapter that examines the Silk Road during the period of Mongol rule to c 1400 CE **Letters From the Silk Roads** Eiji Hattori, 2000-12-13 Even today there are echoes memories and impacts from the silk roads that affect whole cultures and civilizations and sometimes spell the difference between war and peace or preservation of the earth and its continual ruin The Silk Road is a metaphor for worldwide intercultural cooperation in the new millennium Hattori does a comparative East West analysis of various political philosophical and ecological issues particularly in Eurasia Silk, Slaves, and Stupas Susan Whitfield, 2018-03-13 Following her bestselling *Life Along the Silk Road* Susan Whitfield widens her exploration of the great cultural highway with a new captivating portrait focusing on material things *Silk Slaves and Stupas* tells the stories of ten very different objects considering their interaction with the peoples and cultures of the Silk Road those who made them carried them received them used them sold them worshipped them and in more recent times bought them conserved them and curated them From a delicate pair of earrings from a steppe tomb to a massive stupa deep in Central Asia a hoard of Kushan coins stored in an

Ethiopian monastery to a Hellenistic glass bowl from a southern Chinese tomb and a fragment of Byzantine silk wrapping the bones of a French saint to a Bactrian ewer depicting episodes from the Trojan War these objects show us something of the cultural diversity and interaction along these trading routes of Afro Eurasia Exploring the labor tools materials and rituals behind these various objects Whitfield infuses her narrative with delightful details as the objects journey through time space and meaning Silk Slaves and Stupas is a lively visual and tangible way to understand the Silk Road and the cultural economic and technical changes of the late antique and medieval worlds Beyond the Silk and Book Roads Michelle C.
