Moak, 2013-11-21 Perhaps the most controversial aspect of this volume is the number V assigned to the conference in this series. Actually the first conference to be held under the title Atomic Collisions in Solids was held at Sussex University in England in 1969 and the second at Gausdal Norway in 1971 which would logically make the conference held at Gatlinburg Tennessee U S A in 1973 the third. However the appearance of the proceedings of the 1971 Gausdal Conference published by Gordon and Breach bore the number IV. The reasoning behind this was that in fact two previous conferences had been largely dedicated to the same subject area. The first of these was at Aarhus Denmark in 1965 and the second in 1967 was held in Chalk River Canada. Hence the number V for the 1973 meeting.
