Tutorials in Suturing Techniques for Orthopedics Peifu Tang, Kejian Wu, Zhongguo Fu, Hua Chen, Yixin Zhang, 2021-06-10

This book introduces the surgical suture techniques in orthopaedics. These techniques have been recognized as a crucial part for wound care and surgery related prognosis. Training of fellows on suture techniques is of great importance. This book provides a standard tutorial on how to be proficient in surgical suture performance. Tutorials on Emerging Methodologies and Applications in Operations Research Harvey J. Greenberg, 2006-06-16. This volume reflects the theme of the INFORMS 2004 Meeting in Denver: Back to OR Roots. Emerging as a quantitative approach to problem solving in World War II, our founders were physicists, mathematicians and engineers who quickly found peace-time uses. It is fair to say that Operations Research (OR) was born in the same incubator as computer science and it has spawned many new disciplines such as systems engineering, health care management and transportation science. Although people from many disciplines routinely use OR methods, many scientific researchers, engineers and others do not understand basic OR tools and how they can help them. Disciplines ranging from finance to bioengineering are the beneficiaries of what we do. We take an interdisciplinary approach to problem solving. Our strengths are modeling, analysis and algorithm design. We provide a quantitative foundation for a broad spectrum of problems from economics to medicine, from environmental control to sports, from e-commerce to computational geometry. We are both producers and consumers because the mainstream of OR is in the interfaces. As part of this effort to recognize and extend OR roots in future problem solving, we organized a set of tutorials designed for people who heard of the topic and want to decide whether to learn it. The 90 minutes was spent addressing the questions: What is this about in a nutshell? Why is it important? Where can I learn more? In total, we had 14 tutorials and eight of them are published here.
