Aesthetics Marta Zarzycka, Bettina Papenburg, 2012-12-18 Art today is an increasingly multifaceted phenomenon encompassing transgressive works that intervene in war and ecological disasters in inequalities and revolutionary changes in technology Carnal Aesthetics is a fascinating new examination of this aspect of contemporary visual culture Employing recent theories of transgressive body imagery trauma affect and sensation it provides a fresh look at the meeting point between the politics of representation and the politics of perception through the prismatic lens of feminist theory Acclaimed scholars analyse a wide range of seminal case studies coming from different media digital photography painting video film and multimedia art They explore here a number of transgressive movements that significantly reconfigure the relationship between the body and the image Unlike other books on the complex relationship between politics and aesthetics Carnal Aesthetics seeks to provide a novel approach to art and culture by challenging the primacy of vision and by injecting an intersectional perspective into the fields of visual studies film and media studies as well as trauma studies It is a significant contribution across these dynamic fields of exploration for scholars who deal with the socio political nature of contemporary visual culture in their work **Art as Compassion** Bracha Ettinger, Rosi Huhn, Ria Verhaeghe, Fundació Antoni Tàpies, 2011
