Branching Out:

Branching Out, Digging In Sarah B. Pralle, 2006-12-22 Sarah B Pralle takes an in depth look at why some environmental conflicts expand to attract a lot of attention and participation while others generate little interest or action *Branching Out Digging In* examines the expansion and containment of political conflict around forest policies in the United States and Canada Late in 1993 citizens from around the world mobilized on behalf of saving old growth forests in Clayoquot Sound Yet at the same time only a very few took note of an even larger reserve of public land at risk in northern California Both cases the Clayoquot Sound controversy in British Columbia and the Quincy Library Group case in the Sierra Nevada mountains of northern California centered around conflicts between environmentalists seeking to preserve old growth forests and timber companies fighting to preserve their logging privileges Both marked important episodes in the history of forest politics in their respective countries but with dramatically different results The Clayoquot Sound controversy spawned the largest civil disobedience in Canadian history international demonstrations in Japan England Germany Austria and the United States and the most significant changes in British Columbia's forest policy in decades On the other hand the California case with four times as many acres at stake became the poster child for the collaborative conservation approach using stakeholder collaboration and negotiation to achieve a compromise that ultimately broke down and ended up in the courts Pralle analyzes how the various political actors local and national environmental organizations local residents timber companies and different levels of government defined the issues in both words and images created and reconfigured alliances and drew in different governmental institutions to attempt to achieve their goals She develops a dynamic new model of conflict management by advocacy groups that puts a premium on nimble timing flexibility targeting and tactics to gain the advantage and shows that how political actors go about exploiting these opportunities and overcoming constraints is a critical part of the policy process *Branching Out: Botanical Metaphors and Worlding Art History from the 'Tropics'* Miriam

Oesterreich, 2025-05-13 This chapbook examines the aestheticization of plants in colonial discourses and charts visualizations of art histories that use the tree as a metaphor In doing so Miriam Oesterreich considers how tropicalized tree forms have been reappropriated to portray a more worlded art history In the mid twentieth century prominent visual artists including Miguel Covarrubias Alfred Barr and Ad Reinhardt featured trees of art as canonizing illustrations of Western art history Using Pablo Le n de la Barra's poster *Diagrama Tropical Nova Cartografia Tropical* 2010 as a starting point *Branching Out* discusses works by contemporary artists from Latin America and the Caribbean to look at the subversive potential in reimagining plant images and metaphors **Branching Out: A Strategic Planning Toolkit for Branch Campus**

Zhuangzi, 2022-09-06 The *Zhuangzi* Sayings of Master Zhuang is one of the foundational texts of the Chinese philosophical tradition and the cornerstone of Daoist thought The earliest and most influential commentary on the *Zhuangzi* is that of Guo Xiang 265 312 who also edited the text into the thirty three chapter version known ever since Guo s commentary enriches readings of the *Zhuangzi* offering keen insights into the meaning and significance of its pithy but often ambiguous aphorisms narratives

and parables Richard John Lynn's new translation of the Zhuangzi is the first to follow Guo's commentary in its interpretive choices. Unlike any previous translation into any language, its guiding principle is how Guo read the text. Lynn renders the Zhuangzi in terms of Guo's understanding. This approach allows for the full integration of the text of the Zhuangzi with Guo's commentary. The book also features a translation of Guo's complete interlinear commentary and is annotated throughout. A critical introduction includes a detailed account of Guo's life and times as well as analysis of his essential contributions to the arcane learning xuanxue of the fourth century and the development of Chinese philosophy. Lynn sheds new light on how the Daoist classic, which has often been seen as a timeless book of wisdom, is situated in its historical context while also considering it as a guide to personal cultivation and self-realization.

RiverTime Mary A. Hood, 2008-03-20 In this engaging travelogue of our world's rivers, great and small, poet and biologist Mary A. Hood reflects on rivers as creators of place. Recounting her journeys along portions of the Mississippi, the Danube, the Amazon, the Yangtze, the Ganges, the Nile, and a dozen small U.S. rivers, Hood weaves together natural history, current environmental and conservation issues, encounters with endangered plants and animals, and tells some interesting tales along the way. Like a river, the book begins small with essays that are narrowly focused on themes of environment and place, such as the need to write our world, Three Rivers, how fires and corporations control the West, the Flathead, the effect of wind farms on a small town in western New York, the Conhocton, the giant redwoods, and how they were preserved, the Klamath, and the search for moose in the great north woods, the Penobscot. The second section expands the themes of environment and place and looks at great world rivers, their long histories, their biological diversity, the effects of human use and tourism, and the paradox of human reverence and destruction. From endangered species to invasive species, from corporate control of national parks to wind farms, from urban sprawl to efforts at conservation and restoration, *RiverTime* offers insights into our relationship to the environment in the twenty-first century.

Mental Health and Wellbeing in Rural Regions Sarah-Anne Munoz, Steve F. Bain, 2020-08-31 This book considers how rurality interacts with the mental health and wellbeing of individuals and communities in different regional settings. Through the use of international and comparative case studies, the book offers insight into the spatiality of mental health, diagnoses, experiences, services, provision, and services access between and within rural areas. It is the first book to specifically address rural mental health geographies from an international perspective and will be of interest to researchers and policymakers in rural studies, regional studies, health geography, and rural mental health.
