Brain Academy Maths File 2 Ages 79:

The Wounded Brain Healed William Feindel, Richard Leblanc, 2016-04-04 In 1934 Wilder Penfield's vision of an establishment dedicated to the relief of sickness and pain and the study of neurology led to the creation of the Montreal Neurological Institute. Setting the standard for neurological research and care for patients disabled by neurological illnesses, Penfield's institute became a beacon of light in a largely unexplored field of medicine. The Wounded Brain Healed describes the pioneering research that took place during the MNI's first fifty years. During the institute's golden age, Penfield and his colleagues designed the EEG test for the study of epileptic patients, discovered some of the causes of epilepsy, and developed new treatments that have since been adopted worldwide. Additionally, they delineated the sensory and motor representation in the cerebral cortex and localized the major areas of the brain related to speech. The institute also boasts the discoveries of two types of memory: one serving immediate recall, the other long term, as well as the discovery of the localization of short term memory to the inner structures of the temporal lobe. Physicians and scientists who trained at the MNI went on to establish renowned neurology and neurosurgery departments throughout Canada, the United States, Europe, Asia, and Latin America. Recounting the story of one of Canada's greatest contributions to international medical science through archival research, personal interviews, photographs, illustrations, and paintings, The Wounded Brain Healed provides fascinating insight into the institution that had a global and lasting impact.

Classroom Behavior Management for General and Special Educators Myung-Sook Koh, 2025-06-02 This comprehensive textbook outlines a holistic approach to inclusive classroom management. It critically examines the limitations inherent in behaviorism-based methods, particularly the Positive Behavior Interventions and Supports (PBIS) framework rooted in Applied Behavior Analysis (ABA), and offers an alternative that integrates the full spectrum of student needs and the complexities of modern educational dynamics. Addressing the interconnected crises of falling academic standards, rising teacher turnover, and growing student behavioral and emotional challenges, the book presents a comprehensive, actionable strategy for accurately identifying classroom deficiencies and effectively responding to them in a student-centered way. Applicable to both special education and general educational contexts, Classroom Behavior Management for General and Special Educators is key reading for pre-service teachers in classroom and behavior management courses, as well as in-service teachers, teacher educators, and school administrators seeking new ways to address student behavior.

Handbook of Australian School Psychology Monica Thielking, Mark D. Terjesen, 2017-01-26 This handbook addresses the current state and practice of school psychology with a focus on standards unique to Australia, including historical, legal, ethical, practical, and training factors. It provides a compilation of the most current research-based practices, as well as guidelines for evidence-based assessment and intervention for common conditions, e.g., autism, depression, learning disabilities, and for delivering appropriate services to targeted student populations, e.g., LGBT, gifted, medical issues. Chapters discuss the application of national and international school psychology practices.

within the Australian educational and psychological structure The handbook also examines the lack of formal resources specific to Australia s culture and psychology systems with its unique mix of metropolitan cities and the vast geographic landscape that spans regional and remote areas It offers numerous case studies and innovative school mental health programs as well as recommendations for professional development and advocacy that are unique to Australian school psychology Topics featured in this Handbook include Evidence based assessment and intervention for dyscalculia and mathematical disabilities Identification and management of adolescent risk taking behaviors and addictions Understanding and responding to crisis and trauma in the school setting Prevention and intervention for bullying in schools Class and school wide approaches to addressing behavioral and academic needs The role of school psychologists in the digital age Practical advice for school psychologists facing complex ethical dilemmas The Handbook of Australian School Psychology is a must have resource for researchers scientist practitioners and graduate students in child and school psychology social work and related fields that address mental health services for children and adolescents

Academic Languageing Gisela Ernst-Slavit,Margo Gottlieb,2025-06-20 Rethink how academic languageing can transform content area teaching For years the teaching of content based academic language to multilingual learners has focused on formulas vocabulary lists and sentence patterns often sidelining students linguistic and cultural strengths Gisela Ernst Slavit and Margo Gottlieb address these challenges by embracing academic languageing an active collaborative student driven process Academic Languageing offers strategies to integrate language and content learning while fostering student engagement voice and agency Dedicated chapters on academic languageing for Language Arts Mathematics Social Studies and Science highlight the dimensions of disciplinary language for each subject and provide strategies for moving learning forward with multilingual learners Additional features include Stop and Think prompts to help educators connect new ideas with their instructional settings Prompts at the end of each chapter to encourage deeper thinking and application of the material Multilingual examples to mirror the varied classroom settings in the U S and beyond The ultimate resource for educators committed to empowering multilingual learners and fostering meaningful culturally sustaining education Academic Languageing ensures multilingual learners comprehend academic content and thrive as confident autonomous drivers of their own learning *Encyclopaedia*
